In a world where the term Islam is ever-increasingly an inaccurate and insensitive synonym for terrorism, it is unsurprising that many Muslim youth in the West struggle for a viable sense of identity. This book takes up the hotly-debated issue of Muslim youth identity in western countries from the standpoint of popular culture. It proposes that in the context of Islamophobia and pervasive moral panic, young Muslims frame up their identity in relation to external conditions that only see 'good' and 'bad' Muslims, on both sides of the ideological fence between Islam and the West. Indeed, by attempting to break down the 'good' versus 'bad' Muslim dichotomy that largely derives from western media reports, as well as political commentary, *Muslim Youth in the Diaspora: Challenging Extremism through Popular Culture* will enlighten the reader. It illuminates the way in which diasporic Muslim youth engage with, and are affected by, the radical Islamist meta-narrative. It examines their popular culture and online activity, their gendered sense of self, and much more. This original book will be of interest to students and scholars interested in the fields of sociology, cultural studies and social anthropology. It offers a particular focus on Islam for research in youth studies, youth culture, political radicalisation and religious identity. It will also be relevant to the sector of youth and social work, where practitioners seek to build cultural bridges with a new generation. This book is about the life stories of the Mothers of the Believers and 16 other Sahabyat who had been given the good news of the paradise in this world by Prophet Muhammad (S). There are good examples in the lifestyle of the Mothers of the believers and women Companions especially for the Muslim women. It is necessary for all of us to study the Seerah of these noble and fortunate women. Besides the Mothers of the believers, the compiler of the book has included the description of those sixteen women who had been given the good News of the Paradise in this world by the Prophet Muhammad (S). Although the original book is in the Urdu language but the efforts of the translator had made it more beneficial for the readers. In this brilliant look at the rise of political Islam, the distinguished political scientist and anthropologist Mahmood Mamdani brings his expertise and insight to bear on a question many Americans have been asking since 9/11: how did this happen? *Good Muslim, Bad Muslim* is a provocative and important book that will profoundly change our understanding both of Islamist politics and the way America is perceived in the world today. *Building a Better Bridge* is a record of the fourth "Building Bridges" seminar held in Sarajevo in 2005 as part of an annual symposium on Muslim-Christian relations cosponsored by Georgetown University and the Archbishop of Canterbury. This volume presents the texts of the public lectures with regional presentations on issues of citizenship, religious believing and belonging, and the relationship between government and religion—both from the immediate situation in Bosnia-Herzegovina and from three contexts further afield: Britain, Malaysia, and West Africa. Both Christian and Muslim scholars propose key questions to be faced in addressing the issue of the common good. How do we approach the civic sphere as believers in particular faiths and as citizens of mixed societies? What makes us who we are, and how do our religious and secular allegiances relate to one another? How do we accommodate our commitment to religious values with acknowledgment of human disagreement, and how can this be expressed in models of governance and justice? How are we, mandated by scriptures to be caretakers, to respond to the current ecological and economic disorder of our world? Michael Ipgrave and his contributors do not claim to provide definitive answers to these questions, but rather they further a necessary dialogue and show that, while Christian and Islamic understandings of God may differ sharply and perhaps irreducibly, the acknowledgment of one another as people of faith is the surest ground on which to build trust, friendship, and cooperation. This Book is evidenced based from authentic sources of the Quran and Sunah of the Prophet (SAW) and the work of some Muslim scholars. A young Muslim leader's memoir of his struggles to forge an American Muslim identity Haroon Moghul was thrust into the spotlight after 9/11, becoming an undergraduate leader at New York University's Islamic Center forced into appearances everywhere: on TV, before interfaith audiences, in print. Moghul was becoming a prominent voice for American Muslims even as he struggled with his relationship to Islam. In high school he was barely a believer and entirely convinced he was going to hell. He sometimes drank. He didn't pray regularly. All he wanted was a girlfriend. But as he discovered, it wasn't so easy to leave religion behind. To be true to himself, he needed to forge a unique American Muslim identity that reflected his

beliefs and personality. How to Be a Muslim reveals a young man coping with the crushing pressure of a world that fears Muslims, struggling with his faith and searching for intellectual forebears, and suffering the onset of bipolar disorder. This is the story of the second-generation immigrant, of what it's like to lose yourself between cultures and how to pick up the pieces. "Delicate, heart-wrenching and poetic, this is a novel of great poise and power." —Tash Aw, author of *The Harmony Silk Factory*

From poor immigrant to wealthy citizen in leafy, Georgian, Cheltenham. Loving father, successful businessman, magistrate, Tariq Hashmi has it all.... But the skeleton in his cupboard wants out. A clandestine message reminds him how, long ago, he signed a binding pact with Gaddafi's deadly intelligence networks. Now he is forced to turn his hand against a Britain he has come to love. Before he has time to react, unseen hands snatch his most precious possession. He senses a terrible blow is about to be struck and many will die. But he doesn't know where or when the killers will strike. Fearful of the authorities and desperate to get ahead of his adversaries, Hash turns to the only people he can trust, his Muslim friends and a convicted IRA killer. Despite President George W. Bush's assurances that Islam is a peaceful religion and that all good Muslims hunger for democracy, confusion persists and far too many Westerners remain convinced that Muslims and terrorists are synonymous. In the aftermath of the attacks of 9/11, the subsequent wars in Afghanistan and Iraq, and the recent bombings in London, an unprecedented amount of attention has been directed toward Islam and the Muslim world. Yet, even with this increased scrutiny, most of the public discourse regarding Islam revolves around the actions of extremist factions such as the Wahhabis and al-Qa'ida. But what of the Islam we don't hear about? As the second-largest and fastest-growing religion in the world, Islam is deemed by more than a billion Muslims to be a source of serenity and spiritual peace, and a touchstone for moral and ethical guidance. While extremists have an impact upon the religion that is wildly disproportionate to their numbers, moderates constitute the majority of Muslims worldwide. It is this rift between the quiet voice of the moderates and the deafening statements of the extremists that threatens the future of the faith. In *The Great Theft*, Khaled Abou El Fadl, one of the world's preeminent Islamic scholars, argues that Islam is currently passing through a transformative period no less dramatic than the movements that swept through Europe during the Reformation. At this critical juncture there are two completely opposed worldviews within Islam competing to define this great world religion. The stakes have never been higher, and the future of the Muslim world hangs in the balance. Drawing on the rich tradition of Islamic history and law, *The Great Theft* is an impassioned defense of Islam against the encroaching power of the extremists. As an accomplished Islamic jurist, Abou El Fadl roots his arguments in long-standing historical legal debates and delineates point by point the beliefs and practices of moderate Muslims, distinguishing these tenets from the corrupting influences of the extremists. From the role of women in Islam to the nature of jihad, from democracy and human rights to terrorism and warfare, Abou El Fadl builds a vital vision for a moderate Islam. At long last, the great majority of Muslims who oppose extremism have a desperately needed voice to help reclaim Islam's great moral tradition. A Muslim woman's searingly honest memoir of her journey toward self-acceptance as she comes to see her body as a symbol of rebellion and hope—and chooses to live her life unapologetically Ever since she was little, Leah Vernon was told what to believe and how to act. There wasn't any room for imperfection. 'Good' Muslim girls listened more than they spoke. They didn't have a missing father or a mother with a mental disability. They didn't have fat bodies or grow up wishing they could be like the white characters they saw on TV. They didn't have husbands who abused and cheated on them. They certainly didn't have secret abortions. In *Unashamed*, Vernon takes to task the myth of the perfect Muslim woman with frank dispatches on her love-hate relationship with her hijab and her faith, race, weight, mental health, domestic violence, sexuality, the millennial world of dating, and the process of finding her voice. She opens up about her tumultuous adolescence living at the poverty line with her fiercely loving but troubled mother, her absent dad, her siblings, and the violent dissolution of her 10-year marriage. Tired of the constant policing of her clothing in the name of Islam and Western beauty standards, Vernon reflects on her experiences with hustling paycheck to paycheck, body-shaming, and redefining what it means to be a "good" Muslim. Irreverent, youthful, and funny, *Unashamed* gives anyone who is marginalized permission to live unapologetic, confident lives. "Vernon's determined advocacy for body positivity as a feminist and mental health issue, and her painful journey to self-acceptance, are moving and powerful, forcing readers to examine their own preconceptions about beauty standards and health." —Booklist

Jackson Heights in this book is a fictional locale with common features assembled from immigrant-friendly neighborhoods around the world where hardworking honest-to-goodness traders from the Indian subcontinent, rub shoulders with ruthless entrepreneurs, reclusive antique-dealers, homeless nobodies, merchant-princes, lawyers, doctors and IT specialists. But as Siraj and Shabnam, urbane newcomers fleeing religious

persecution in their homeland discover there is no escape from the past. Weaving together the personal and the political *The Good Muslim* of Jackson Heights is an ambiguous elegy to a utopian ideal set free from all prejudice. In *Constructing Civility*, Richard Park bridges Christian and Islamic political theologies on the basis of an Aristotelian ethics. He argues that modern secularism entails ideological commitments that can work against the promotion of public civility in pluralistic societies. A corrective outlook on public life and the public sphere is necessary, an outlook that aligns with and recovers the notion of the human good. Park develops a framework for a universally applicable public civility in multifaith and multicultural contexts by engaging the central concepts of the "image of God" (*imago Dei*) and "human nature" (*fitra*) in Roman Catholicism and Islam. The study begins with a critique of the social fragmentation and decline of public life found in modernity. Park's central contention is that the construction of public civility within Christian and Islamic political theologies is more promising and sustainable if it is reframed in terms of the human good rather than the common good. The book offers an illustration of the proposed framework of public civility in Mindanao, Philippines, an area that represents one of the longest-standing conflicts between Christian and Muslim communities. Park's sophisticated treatment brings together theology, philosophy, religious studies, intellectual history, and political theory, and will appeal to scholars in all of those fields. The author was born as a Muslim and, when he accepted Jesus, suffered persecution and imprisonment. Upon coming to America, he found Americans greatly confused regarding Islam. Americans could not and did not recognize the difference between 'Good Muslims' who obey Islam and Islamic Law and the 'Good Muslims' who live among them. So the author was led to write this book to clarify what will happen if a Muslim who lives here in America decides to obey Islam in order to be a good Muslim in the eyes of Allah. In politics, will good Muslims believe in Democracy and that political life? What about in their social life—how will they live with Jews, Christians, and Women? Also, what about music, art, and animals? Will they respect the International Declaration of Human Rights: Marriage and Family? The author would encourage Americans to read this book and consider all these things. In this thought-provoking book, Mona Siddiqui reflects upon key themes in Islamic law and theology. These themes, which range through discussions about friendship, divorce, drunkenness, love, slavery and ritual slaughter, offer fascinating insights into Islamic ethics and the way in which arguments developed in medieval juristic discourse. Pre-modern religious works contained a richness of thought, hesitation and speculation on a wide range of topics, which were socially relevant but also presented intellectual challenges to the scholars for whom God's revelation could be understood in diverse ways. These subjects remain relevant today, for practising Muslims and scholars of Islamic law and religious studies. Mona Siddiqui is an astute and articulate interpreter who relays complex ideas about the Islamic tradition with great clarity. Her book charts her own journey through the classical texts and reflects upon how the principles expounded there have guided her own thinking, teaching and research. No other religion is subject to as much debate and controversy as Islam. But who was Muhammad, and what did he teach? Does the Qur'an really preach holy war? What is the role of women within Islam? And what does the rise of Isil and militant Islam mean for Muslims and for the world? Explaining Islam's history, core beliefs and rituals, as well as current issues of political and social importance, this book covers everything you need to understand the world's fastest-growing religion. Written by renowned scholar and Professor of Islamic and Interreligious Studies, Mona Siddiqui, it addresses such varied concepts as the five pillars of Islam; the divisions between Sunni and Shi'a; the importance of Shari`a law; the significance of Mecca and the Ka'ba; the role of Ramadan, the veil, the mosque and the madrasa; and much more - all in 50 concise and expert essays. "Spellbinding . . . Anam has written a story about powerful events. But it is her descriptions of the small, unheralded moments . . . that truly touch the heart." —San Francisco Chronicle Tahmima Anam's deeply moving debut novel about a mother's all-consuming love for her two children, set against the backdrop of war and terror, has led critics to comparisons with *The English Patient* and *A Thousand Splendid Suns*. Rehana Haque, a young widow transplanted to the city of Dhaka in East Pakistan, is fiercely devoted to her adolescent children, Maya and Sohail. Both become fervent nationalists in the violent political turmoil which, in 1971, transforms a brutal Pakistani civil war into a fight to the death for Bangladeshi independence. Fair-minded and intensely protective of her family, but not at all political, Rehana is sucked into the conflict in spite of herself. A story of passion and revolution, of family, friendship and unexpected heroism, *A Golden Age* depicts the chaos of an era and the choices everyone—from student protesters to the country's leaders, and rickshaw wallahs to the army's soldiers—must make. Rehana herself will face a cruel dilemma; the choice she makes is at once heartbreaking and true to the character we have come to love and respect. Popular representations of Pakistan's North West Frontier have long featured simplistic images of tribal blood feuds, fanatical religion, and the seclusion of women. The rise to power of the radical Taliban regime in neighbouring Afghanistan enhanced the region's reputation as a place of anti-Western militancy. Magnus Marsden is an anthropologist who has immersed himself in the lives of the Frontier's villagers for more than ten years. His evocative study of the Chitral region challenges all these stereotypes. Through an exploration of the everyday experiences of both men and women, he shows that the life of a good Muslim in Chitral is above all a mindful life, enhanced by the creative force of poetry, dancing and critical debate. Challenging much that has been assumed about the Muslim world, this 2005 study makes a powerful contribution to the understanding of religion and politics both within and beyond the Muslim societies of southern Asia. In her new novel, *The Good Muslim*, Anam again deftly weaves the personal and the political, evoking with great skill and urgency the lasting ravages of war and the competing loyalties of love and belief. *Good Muslim Boy* tells the story of Osamah Sami's journey from Iran during the Iraq war to the suburbs of Australia and his quest to fit into his new life whilst trying to stay a good Muslim boy. In turns comic and tragic, Osamah's story explores the universal truths of growing up, falling in love, marriage, family and following one's dream; whilst also telling the immigrant's story of straddling two cultures and the difficult expectations of family and faith versus fitting in. Osamah begins by recounting his youth under Islamic rule in Iran: the mischievous antics that he and his friends would get up to, and the lengths they would go to for a little contact with girls - resulting in hilarious reprimands from the 'Piety Police'. But the inescapable impacts of war are never far away and Osamah details the trauma his family suffered from the violence in Iran and their desperation to reach safer shores in Australia. Cut to Australia years later where Osamah is pretending to attend university after lying to his family about his final high school results, afraid of the shame it will cause to learn that their son didn't make it into medical school. While embroiled in his lie, Osamah meets the girl of his dreams - but as neither of their parents would approve of their relationship, they must carry out their affair in secret... What ensues must be read to be believed, an arranged marriage is escaped; true love is embraced; and an acting career evolves, as Osamah goes on the road staging a show entitled 'Saddam The Musical'. With a distinct authorial voice, Osamah Sami's *A Good Muslim Boy* unfolds and enchants us; both funny and entertaining, we are enlightened, shocked, saddened, made to laugh, and ultimately uplifted in a tale that couldn't come at a more prescient time. At the same time, a mature body of the literature has shown that financial development is broadly conducive to economic growth, which raises the question as to whether a similar conclusion holds for Islamic banking. Against this backdrop, this paper investigates the relationship between Islamic banking development and economic growth in a sample of low and middle income countries, using data over the period 1990-2010. The results show that, notwithstanding its relatively small size compared to the economy and the overall size of the financial system, Islamic banking is positively associated with economic growth even after controlling for various determinants, including the level of financial depth. The results are robust across different specifications, sample composition and time periods. Nearly five million Muslims call France home, the vast majority from former French colonies in North Africa. While France has successfully integrated waves of immigrants in the past, this new influx poses a new variety of challenges—much as it does in neighboring European countries. Alarmists view the growing role of Muslims in French society as a form of "reverse colonization"; they believe Muslim political and religious networks seek to undermine European rule of law or that fundamentalists are creating a society entirely separate from the mainstream. Integrating Islam portrays the more complex reality of integration's successes and failures in French politics and society. From intermarriage rates to economic indicators, the authors paint a comprehensive portrait of Muslims in France. Using original research, they devote special attention to the policies developed by successive French governments to encourage integration and discourage extremism. Because of the size of its Muslim population and its universalistic definition of citizenship, France is an especially good test case for the encounter of Islam and the West. Despite serious and sometimes spectacular problems, the authors see a "French Islam" slowly replacing "Islam in France"—in other words, the emergence of a religion and a culture that feels at home in, and is largely at peace with, its host society. Integrating Islam provides readers with a comprehensive view of the state of Muslim integration into French society that cannot be found anywhere else. It is essential reading for students of French politics and those studying the interaction of Islam and the West, as well as the general public. Among the unsettling social shifts in the wake of 9/11 was the global attention paid to Islam. Here in the United States, we became divided, often sadly along partisan lines, between those who believed every Muslim was a potential threat and those who believed no Muslim could do wrong. For conservative Wisconsin native and former U.S. Navy Lieutenant Commander Dr. M. Zuhdi Jasser, these radical times meant facing a new reality as a devout Muslim and a patriot—a certain betrayal within his faith, and a need to answer a question that crossed the minds of even the most sensitive and politically correct: "Can a good Muslim be a good American as well?" Jasser founded the American Islamic Forum for Democracy (AIFD) to instill in young American Muslims an appreciation for the distinctively positive impact that this nation's ideals of liberty have had upon the world. As a nationally recognized expert on Muslim radicalization, he offers non-Muslims a definitive comprehension of the difference between Islam and the spiritual cancer known as Islamism, or political Islam, and how violence and extremism run counter to Islam's true teachings. As he persuasively argues, until we acknowledge the threat of Islamism in all its forms, the majority of Americans will be gulled into recognizing only the most obvious: terrorism. In *A Battle for the Soul of Islam*, Jasser embraces both his faith and his country while asking hard questions: * Are American Muslim children learning entitlement as victims, or are they being taught individual responsibility and critical thinking? * Are poisonous conspiracy theories dividing their American identity, or are they gaining exposure to reason, nationalism, and patriotism? * Are Muslims publicly critical of the Islamist movements of the Middle East, or do they remain silent on aspects of religious doctrine that conflict with modernity and universal equality? * Is the American press downplaying the seditious threat of homegrown Islamist radicalism and the influence of Islamists' propaganda arm on our governmental policies? * Is our culture of political correctness a major obstacle toward long-overdue Muslim reform against Islamism? All these years after 9/11, it's time for us to understand the true threat of Islamism. It is a Muslim problem that needs a Muslim solution, and *A Battle for the Soul of Islam* builds a solid, balanced, and imperative must-read foundation for the fight. A fourteen-year-old middle school boy questions his Muslim identity after 9/11, only to make a surprising discovery about himself and his place in America. This book advances an Islamic political philosophy based on the concept of Ihsan, which means to do beautiful things. The author moves beyond the dominant model of Islamic governance advanced by modern day Islamists. The political philosophy of Ihsan privileges process over structure, deeds over identity, love over law and mercy and forgiveness over retribution. The work invites Muslims to move away from thinking about the form of Islamic government and to strive to create a self-critical society that defends national virtue and generates institutions and practices that provide good governance. This fifth book of the series takes the young reader through a typical day in the life of a Muslim and explains how a good Muslim should react and deal with the various daily situations and events that we are all faced with. full colour and recommended for ages 11 and over. Raising good Muslim children in the West can be a challenge. Implement the Eastern Islamic teachings with more understanding of the psychological development of children raised in the west to rise to the occasion. Nahed El-Kholy, M.D. blends knowledge of east and west to raise the next generation of Muslim children." This book shows how competing Islamic ideas and practices create alternative political and social realities in the Muslim majority regions of the Arab Middle East, Iran, South Asia, Africa, and elsewhere in ways that differ from the emergence of the public sphere in Europe. The book uses an ethnographic approach to explore why the Tablighi Jamaat movement remains so successful in contemporary times. It shows that this success results from the positive image that it cultivates, and the systematic preaching activities of Tablighi Jamaat followers, and that the organisation's apolitical image, the public profile of the ijtema, the humbleness of Tablighi followers, and the attraction of belonging to the global Tablighi community all help to create a positive image of the Tablighi Jamaat among ordinary Muslims. The book also argues that the Tablighi Jamaat remains successful because of its ability to hold its followers within a Tablighi-guided life, which is perceived as protection against the Western lifestyle. Many elements of contemporary Western lifestyle are considered non-Islamic, and so by clearly defining what is Islamic and non-Islamic in modern society, the Tablighi Jamaat provides a way in which Muslims can live in the contemporary world, but remain good Muslims.
