**Island of Java** Jun 24 2020

This is the first and most important book about the Island of Java and is essential reading for anyone interested in Javanese history and culture. Originally published in 1811, Island of Java was the first popular work in English to describe what for many centuries was the most important island in the vast Indonesian archipelago. Like most works published during

this time, Island of Java recounts everything that was known at the time about the island and its inhabitants. Detailed descriptions are given of Java's ecology, history and culture, including methods of tribute and tazation used by the Dutch colonists and the design of the fortifications surrounding Batavia. Also described are such things as the dining habits of the Dutch administrators, the execution of thirteen of the ruler's concubines in Surakarta, and the notorious Upas or "Poison Tree of Java", believed to exude a foul odor which routinely annihilated all living things for miles around. This reprint is enhanced by a scholarly Introduction by Dr. John Bastin, former Reader at the School of Oriental and African Studies, University of London, and a world authority on nineteenth century Java.

The History of Java. By Thomas Stamford Raffles, Esq. Late Lieutenant-Governor of that Island and Its Dependencies. In Two Volumes, with a Map and Plates. Printed for Black, Parbury and Allen ... and John Murray ..., 1818 Jun 05 2021

**Raffles and the British**

**Invasion of Java** Aug 19 2022

On a hot August afternoon in 1811, an army of 10,000 British redcoats splashed ashore through the muddy shallows off Batavia (the former name of Jakarta, Indonesia's capital) to conquer the Dutch colony of Java. They would remain there for five turbulent years.

Drawing on both British and Javanese archival sources, this entertaining and highly readable narrative history-cum-biography explores the bloody battles and furious controversies that marked British rule in Java, and reveals the future founder of Singapore, Thomas Stamford Raffles - long celebrated as a hero, a liberal and a visionary - in a shocking new light, showing how he crushed dissent, looted palaces and incited massacres to further his own insatiable ambitions. The book features the dramatic Battle of Batavia, the sinister British expedition to Palembang, the 1812 sacking

and looting of Yogyakarta, and various fights between soldiers and civilians, buffaloes and tigers, and Englishmen and Javanese.

Raffles Mar 22 2020 By the

time of his death, Thomas

Stamford Raffles (1781-1826)

was the founder of Singapore

and Governor of Java, having

left school in his early teens to

become a clerk for the British East India Company.

Charismatic and daring, Raffles

forged an extraordinary path

for himself in South East Asia -

refusing to be satisfied with the

trading posts available to the

British, he defied Dutch

governors and wrangled with

warring local rulers to establish what is now a world city. An ardent linguist and zoologist, Raffles spoke fluent Malay and found time to write *The History of Java*, as well as naming several species of flora and fauna he discovered on his travels. He founded London Zoo and promoted the study of Malay alongside European languages in Southeast Asia. Raffles remains a controversial figure - a utopian imperialist, disobedient employee and knight of the realm who died deeply in debt, predeceased by all but one of his children. He built racial segregation into his urban planning, but was also a staunch abolitionist. Renowned biographer Victoria Glendinning charts Raffles' prodigious rise in this new edition, specially updated for the bicentenary of the foundation of Singapore in 1819. His life was short, complicated and shot through with tragedy, but Raffles' fame lives on.

Olivia & Sophia May 24 2020 When Raffles sets sail from the cold, damp confines of Georgian London to make his name and fortune in the tropics, he takes with him his new wife, Olivia, a raffish beauty with a scandalous past. She infatuates both his closest

friend, a poet, and one of his bitterest rivals, a soldier. Raffles sees what is going on, but he turns a blind eye - or so hopes Olivia. After Olivia's death, and back on leave in London, Raffles, a man once again in need of a wife, makes a practical marriage. Sophia, no beauty, but curious and intelligent, embraces the opportunity of an exciting life abroad. Marriage brings her great joy but also great sadness. Her life with Raffles becomes a catalogue of loss: of their children, of their possessions, of their savings. And all the while, Raffles, driven and talented, manoeuvres at the centre of global networks of power, trade, politics and diplomacy. His scheming culminates, to his eventual glory, with the founding of a new trading post: Singapore.

**Raffles and Religion** Aug 27 2020 The first and only proconsul of Java for Britain, founder of Singapore, and the author of a two-volume encyclopaedic work on Java, Sir Thomas Stamford Raffles (1781-1826) is, in the minds of many, the most dedicated colonial administrator in the history of Southeast Asia. So much so that entire collections of writings have been devoted to him, and he has been the subject of a comprehensive bibliography. Yet, none of these works has made an extensive analysis of Raffles' discourse on the religions of a people he perceived as 'Malays', which he developed throughout his 18 years of service in the region. The book attempts to fill this gap by examining in detail

Raffles' discourse on the 'various religions' of the Malays.

*Southeast Asia in Ruins* Oct 29

2020 British artists and commentators in the late 18th and early 19th century encoded the twin aspirations of progress and power in images and descriptions of Southeast Asia's ruined Hindu and Buddhist candi, pagodas, wats and monuments. To the British eye, images of the remains of past civilisations allowed, indeed stimulated, philosophical meditations on the rise and decline of entire empires. Ruins were witnesses to the fall, humbling and disturbingly prophetic prompts to speculation on imperial failure, and the remains of the Buddhist and Hindu

monuments scattered across Southeast Asia proved no exception. This important study of a highly appealing but relatively neglected body of work adds multiple dimensions to the history of art and image production in Britain of the period, showing how the anxieties of empire were encoded in the genre of landscape paintings and prints.
