Making Eye Health a Population Health Imperative Jul 27 2020 The ability to see

deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

The Worst Book Ever Aug 28 2020 Elise Gravel wants to write a totally drab book; her characters want to let loos. Who's gonna win? Don't take the title as a metaphor: it really is the worst book ever. Governor General Literary Award winning children's book author and illustrator Elise Gravel takes readers on an unexpected journey through the world's most boring book. The story's characters and omniscient readers alike quickly become annoyed by the author's bland imagination and rebel against her tired tropes and stale character choices, spouting sass in an attempt to get her attention and steer the narrative in a more interesting direction. After all, you don't even have to buy the book, but the characters? They're stuck in there for an eternity, and they're going to do their best to make the most of it, or at least have a little fun where they can. As the charming and bizarre true nature of the characters overpowers the dry attributes given to them by the author, this once blasé story quickly picks up speed, transforming the story into something much more unique than originally promised. With Gravel's signature goofy characters behind the wheel, no silly twist or rude body function is off the table!

VisuaLeadership Dec 20 2019 VisuaLeadership [noun]: The art and science of applying visual thinking and visual communication tools, tips, and techniques, in order to turn your vision into reality. If a picture is worth a thousand words, and finding the right words takes time, and time is money, then wouldn't it follow that business leaders could make more money—in less time—if they simply took a more "visual" approach to how they manage and lead? Okay, it's not quite that simple...but VisuaLeadership will forever change the way you think and communicate by showing how you can quickly and easily leverage the power of visual imagery, mental models, metaphor, analogy, storytelling, and humor to help you take your game to a whole new level. The French novelist Marcel Proust famously wrote that, "The real voyage of discovery consists not in seeking new lands, but in seeing with new eyes." So, if your vision is to become a better communicator and presenter, a more innovative thinker, a more productive performer, a more efficient manager, a more effective coach, or a more visionary and inspirational leader, then this exciting new book will open your "mind's eye" to a whole new world: The world of VisuaLeadership. "Have you added visual communication to your leadership toolbox? According to Todd Cherches, if you haven't, you're missing out on a powerful tool to capture attention, aid comprehension, and enable your team members to retain the information you need them to use. Packed with examples, VisuaLeadership will help you develop this skill

so that you can become a better communicator, innovator, and leader.” —Daniel H. Pink, author of *When and Drive* “The most effective communicators and leaders use the power of story to influence and inspire action. In *VisuaLeadership*, Cherches demonstrates how every role can express their ideas through the use of visual imagery and visual language. This book will help anyone discover how to become a visual leader.” —Nancy Duarte, CEO and bestselling author “I always say that ‘what got you here...won’t get you there.’ To help you ‘get there,’ executive coach Todd Cherches, in his wonderful new book, *VisuaLeadership*, demonstrates how we can all leverage the power of visual thinking to envision—and to achieve—a more successful future.” —Marshall Goldsmith, the world’s #1 Leadership Thinker and Executive Coach

Differently Wired Feb 20 2020 Today millions of kids are stuck in a world that doesn't respect, support, or embrace who they really are—these are what Deborah Reber is calling the “differently wired” kids, the one in five children with ADHD, dyslexia, Asperger's, giftedness, anxiety, sensory processing disorder, and other neurodifferences. Their challenges are many. But for the parents who love them, the challenges are just as hard—struggling to find the right school, the right therapist, the right parenting group while feeling isolated and harboring endless internal doubts about what's normal, what's not, and how to handle it all. a book of YES. By offering 18 paradigm shifts—what she calls “tilts”— Reber shows how to change everything. How to “Get Out of Isolation and Connect.” “Stop Fighting Who Your Child Is and Lean In.” “Let Go of What Others Think.” “Create a World Where Your Child Can Feel Secure.” “Find Your People (and Ditch the Rest).” “Help Your Kids Embrace Self-Discovery.” And through these alternative ways of being, discover how to stay open, pay attention, and become an exceptional parent to your exceptional child.

Bloom Mar 03 2021 "In her tender and genuinely beautiful memoir, Kelle Hampton encourages us to not simply accept the unexpected circumstances of our lives, but to embrace them like the things we wished for all along." —Matthew Logelin, New York Times bestselling author of *Two Kisses for Maddy Bloom* is an inspiring and heartfelt memoir that celebrates the beauty found in the unexpected, the strength of a mother's love, and, ultimately, the amazing power of perspective. From the outside looking in, Kelle Hampton had the perfect life: a beautiful two-year-old daughter, a loving husband, a thriving photography career, and great friends. When she learned she was pregnant with her second child, she and her husband, Brett, were ecstatic. Her pregnancy went smoothly and the ultrasounds showed a beautiful, healthy, high-kicking baby girl. But when her new daughter was placed in her arms in the delivery room, Kelle knew instantly that something was wrong. Nella looked different than her two-year-old sister, Lainey, had at birth. As she watched friends and family celebrate with champagne toasts and endless photographs, a terrified Kelle was certain that Nella had Down syndrome—a fear her pediatrician soon confirmed. Yet gradually Kelle's fear and pain were vanquished by joy, as she embraced the realization that she had been chosen to experience an extraordinary and special gift. With lyrical prose and gorgeous full-color photography, *Bloom* takes readers on a wondrous journey through Nella's first year of life—a gripping, hilarious, and intensely poignant trip of transformation in which a mother learns that perfection comes in all different shapes. It is a story about embracing life and really living it, of being fearless and accepting difference, of going beyond constricting definitions of beauty, and of the awesome power of perspective. As Kelle writes, "There is us. Our Family. We will embrace this beauty and make something of it. We will hold our precious gift and know that we are lucky."
