The history of science is a story of human discovery--intertwined with religion, philosophy, economics and technology. The fourth in a series, this book covers the beginnings of the modern world, when 16th-century Europeans began to realize that their scientific achievements surpassed those of the Greeks and Romans. Western Civilization organized itself around the idea that human technological and moral progress was achievable and desirable. Science emerged in 17th-century Europe as scholars subordinated reason to empiricism. Inspired by the example of physics, men like Robert Boyle began the process of changing alchemy into the exact science of chemistry. During the 18th century, European society became more secular and tolerant. Philosophers and economists developed many of the ideas underpinning modern social theories and economic policies. As the Industrial Revolution fundamentally transformed the world by increasing productivity, people became more affluent, better educated and urbanized, and the world entered an era of unprecedented prosperity and progress. In an alchemical ritual gone wrong, Edward Elric lost his arm and his leg, and his brother Alphonse became nothing but a soul in a suit of armor. Equipped with mechanical "auto-mail" limbs, Edward becomes a state alchemist, seeking the one thing that can restore his brother and himself...the legendary Philosopher's Stone. Ed returns to Resembool and meets his father Hohenheim for the first time in many years. Although his father is happy to see him, Ed harbors intense feelings of resentment for being all but abandoned many years ago. However, anger gives way to intrigue as Ed and Al discover an important fact about the human transmutation ritual they attempted years before. What they thought was a partial resurrection of their mother was something else entirely -- a revelation that could change their destiny forever. This Is A New Release Of The Original 1907 Edition. When Tudor explorers returned from the New World, they brought back a name out of half-forgotten Viking legend: skraylings. Red-sailed ships followed in the explorers' wake, bringing Native American goods--and a skrayling ambassador--to London. But what do these seemingly magical beings really want in Elizabeth I's capital? Mal Catlyn, a down-at-heel swordsman, is seconded to the ambassador's bodyguard, but assassination attempts are the least of his problems. What he learns about the skraylings and their unholy powers could cost England her new ally--and Mal his soul.
