New religions emerge as distinct entities in the religious landscape when innovations are introduced by a charismatic leader or a schismatic group leaves its parent organization. New religious movements (NRMs) often present novel doctrines and advocate unfamiliar modes of behavior, and have therefore often been perceived as controversial. NRMs have, however, in recent years come to be treated in the same way as established religions, that is, as complex cultural phenomena involving myths, rituals and canonical texts. This *Companion* discusses key features of NRMs from a systematic, comparative perspective, summarizing results of forty years of research. The volume addresses NRMs that have caught media attention, including movements such as Scientology, New Age, the Neopagans, the Sai Baba movement and Jihadist movements active in a post-9/11 context. An essential resource for students of religious studies, the history of religion, sociology, anthropology and the psychology of religion. Where is God in the suffering of a mentally ill person? What happens to the soul when the mind is ill? How are Christians to respond to mental illness? With brutal honesty, she tackles often avoided topics such as suicide, mental hospitals, and electroconvulsive therapy. Greene-McCreight offers the reader everything from poignant and raw glimpses into the mind of a mentally ill person to practical and forthright advice for their friends, family, and clergy. This buyer's guide for the classic BSA Gold Star covers the complete range of production from the original 1938 Model M24 through post-WWII models ZB, BB, CB, DB and DBD. It is organized for potential Gold Star buyers to use when inspecting one of these highly desirable machines for possible purchase. Significantly

expanded from the previous edition, it includes specialized information and photographs necessary to avoid paying Gold Star prices for the similar-looking B32/B34 and Alloy Clipper "competition models," or purchasing dubious components such as renumbered engines and counterfeit RRT2 gearboxes. The information also will be invaluable for restorers as well as people generally interested in the history of these machines. One chapter is devoted to the 1957 Spitfire Scrambler, a little-known hybrid produced only that year consisting of a twin-cylinder 650 cc engine in Gold Star cycle parts, predating the Rocket Gold Star by five years. The main body of the 4th edition was 21 pages, with 16 figures and 11 tables. The main body of the 5th edition has more than doubled to 50 pages and now has 44 figures and 17 tables containing information on the proper speedometers, tachometers, gearboxes, carburetors, etc., and cover all models, including Clubman, Catalina Scrambler, Road Racer, Dirt Tracker, and Competition 'All Sports'. Sixty-four pages of color advertisements and images from rare sales brochures and magazines contain information for all years of this machine, from a pre-production 1937 description of expected specifications, to a listing in a 1964 sales brochure issued a year after the last Gold Star was manufactured (not covered are the B25/B50 machines that were given the name in 1971-72). For the restorer or rebuilder, a very useful "reverse parts list" specially created for this book has DBD part numbers sorted in numerical order, enabling part numbers to be quickly identified and associated with the corresponding figures in the BSA parts manual. If you ever might want to buy, restore, or rebuild a Gold Star, the information in this book can save you considerable time as well as keep you from making some very costly mistakes. CHAPTERS: 1.
