10 ways to tap into your social genius In a busy urban neighborhood, six very different individuals who don't know each other have something in common: they all relish the companionship of a friendly cat that roams the area. From a librarian to a homeless war veteran to a little girl who's just moved in, this cat makes everyone's world a little brighter, a little less lonely. Each neighbor is unaware of the cat's visits with everyone else, so he goes by many different names: Stuart Little, Dove, Placido—the cat answers to them all. Only when a near-accident threatens the cat does everyone learn his true identity and owner. In learning about each other, the people in the neighborhood come together as a community. THE CAT WITH SEVEN NAMES is a heartfelt story that reflects the need and desire of all people to be a part of a community, to have a connection with someone or something—be it animal or human. Told from the perspective of each of the six neighbors, Tony Johnston introduces point of view to readers of all ages, while Christine Davenier's loose watercolor illustrations beautifully depict the diversity of the world around us. "Both what you run from -- and what you yearn for -- are within you." --Anthony de

Mello, S.J. In the tradition of his bestselling *Song of the Bird*, de Mello has written these story meditations as stepping stones toward a spiritual life based on self-knowledge and understanding. This book contains over 250 stories, grouped under the themes of Prayer, Awareness, Religion, Grace, "Saints," Self, Love, and Truth. Although derived from a variety of countries and cultures, these tales share the spiritual heritage and popular humor of the entire human race. As he does so skillfully in his other books, de Mello uses the medium of the story to enable his readers to work through their problems and arrive at essential Truth. With each seemingly simple anecdote comes a lesson powerful enough to break down barriers that limit self-understanding -- which in turn fosters a better understanding of others, in all situations in life. "Even if you read the stories in this book only for the entertainment," he warns, "there is no guarantee that an occasional story will not slip through your defenses and explode when you least expect it to." *Taking Flight* offers a joyful, transcendental experience. De Mello pilots a spiritual journey with the skill of a true master. This book draws upon the legacy of wisdom from ancient manuscripts, which can have a profound impact on your life. Mankind is oblivious to the extent of the devastation bestowed on the environment, and the fact that we are jeopardising the survival of future generations. There has never been so much violence, crime, corruption, murder and war in the history of mankind. In spite of our triumphs, in terms of scientific discoveries, we are deprived of physical, emotional and spiritual well-being. The state of the outer world reflects the condition of our inner world. This book provides the reader with a renewed epiphany and insight into the extent to which we have strayed from our authentic self or true essence. Our main obstacles are ignorance, apathy and complacency. We are morally bankrupt and the solution to our problem is a soul-ution. Most people are unaware of the fact that we all have the ability to tap into the realm of Divine Universal Energy that surrounds us. We have the ability to live from a soul level; to connect with the sacred and to increase our awareness. The possibility of perfect health, serenity, and inner peace exists within the Spiritual Realm. The choice, to live in this Realm and in harmony with the Universal Laws, comes with certain responsibilities. This book offers guidelines, which will assist you to live with increased joy, purpose, passion and meaning. Applying these principles can make the difference between surviving and thriving. De Mello's spiritual classic remains at the top of the Fount bestsellers more than five years after its original publication. *Community in Modern Scottish Literature* is the first book to examine representations and theories of community in Scottish writing of the twentieth and twenty-first centuries across a broad range of authors and from various conceptual perspectives. We often stray from our intended course of journey and become demoralized soon. We, eventually, end up with having a stagnant life rather than having the passion to pursue our dreams and goals. Here comes the significance of some good inspirational books. Our brains are getting wired differently in the world of digital technology, information revolution, and in the inter-cultural world of global society. Think of the new vocabulary: Global brain, collective intelligence, global village, and cyberspace. That should tell us something about the neural rewiring that is taking place inside of our brains, whether or not we are aware of it. The fact that the human brain changes throughout a person's life in response to intellectual stimulation, physical exercise, exposure to new cultural environments, learning opportunities, and challenges is a revolutionary discovery. Till twenty years ago neuroscientists believed in the conventional theory that the brain's ability at making new neural connections stopped before a child entered adolescence. That is the old dogma. There is a "Second Copernican Revolution" taking place inside of our brains, writes the author, quoting Carl Zimmer. Some experts are suggesting that we are already living in what Richard Restack calls the "neurosociety." Ray Kurzweil, the futurist, is predicting that by 2045 A.D., human beings will be living in an era of "singularity," when non biological machines invented by human brains and human ingenuity are going to outsmart human intelligence billions of times. What is going to be the fate of the human spirit, human spirituality, the feeling of connection to a force and power that is greater than us (God), our ability to use spiritual imagination and our

intelligence? Are we progressively moving away from religion and community-based spirituality into the "spirituality of different strokes for different folks?" In his groundbreaking book, Spiritual Intelligence and The Neuroplastic Brain: A Contextual Interpretation of Modern History, Charles W. Mark takes the reader on a journey through modern history and shows the glimpse of what is to come. <http://www.spirituality-intelligence.com> Peter Ralston's exceptionally lucid trilogy on the nature of human consciousness culminates here in The Genius of Being, a book of deep contemplations on the unseen elements that create our world. The first volume, The Book of Not Knowing, garnered much praise as a comprehensive exploration of the depths of self and consciousness. The second volume, Pursuing Consciousness, clarifies the difference between enlightenment and self-transformation, and then pairs these two goals in a strikingly effective way. This third book is both shorter and more complex, taking us straight to the heart of the origins of our experience. In a progression of illuminating assertions, Ralston shows us how human consciousness carves out distinctions from whatever is absolutely true. This dynamic not only generates both self and reality from nothing, it imbues them with the quality of objective truth. From the time we first distinguish between self and not-self as infants, we begin making a sequence of existential assumptions that result in the illusion that a self is some ethereal “object” within. This universally accepted assumption persists despite the failure of exhaustive investigations to locate this inner self. This book is not for the faint of heart or the casual seeker, but contemplating the assertions here empowers you to personally and experientially grasp what is rarely even glimpsed: a profound consciousness of the genesis of human experience. So connected, we disconnected and find ourselves desperately alone drowning in an ocean of infinite possibilities. “A masterpiece that beautifully demystifies the evolutionary role of loneliness, echoes a powerful existential message for mankind, and amplifies people’s faith in the power of love.” Jack Canfield -Co-creator of Chicken Soup for the Soul™ Meticulously researched and written, #Loneliness: The Virus of the Modern Age explores the fierce scientific, psychological and spiritual impact of loneliness - a problem that has become an ironic epidemic in a world that is more interconnected than ever before. In a world where communication is instant, where billions of people can interact at just a moment’s notice, it will come as a shock to many to learn that loneliness is an epidemic more rampant and destructive than at any point in history. Almost everyone faces adversity from the isolation that causes us some degree of depression, anxiety or diminished self-esteem. We have become accustomed to a new way of being alone together in a technological cocoon that covers up our real pain. Our true essence is hidden behind facades that we show to the world from the fear of being judged, criticized, and rejected. This is what brings us out of a natural state of healthy balance, is the root cause of disease, and what creates the segregation experienced worldwide. #Loneliness is a global call for people to redefine themselves in the face of life's most significant challenges. Comforting, moving, and spiritually practical, this book is a guide to

help you break through your apparent loneliness, and shift you toward crowd-nurtured world peace and the next stage in our evolution. Loneliness not only disintegrates your mental and physical health but also infects your genome and leads to multiple changes while painting a dark and negative picture of the world around you. The most surprising thing to learn is that today’s obsession with technology does nothing more than simply awaken the segregation, discord, and loneliness already inside us all, which further spirals our moods and outlook. Read this book to make you aware of that problem, create a road map that safely guides you out of your dis-empowered states, and empower yourself to redefine the meaning of your life so you can overcome adversity with ease and build the happiness and prosperity you so deeply crave. Use it to reveal how inner discord creates your deceptive loneliness, which is spontaneously appearing around the world in the form of war, racism, nationalism, xenophobia, homophobia, illness, high divorce rates, financial crisis, and so much more. A life manual that shows you how to extract wisdom from every life adversity, so you become a more balanced, mindful, and heart-centred individual, leader, parent, teacher, and human being. If you let it, each page will guide you and encourage you to make the changes that your soul is craving. The principles and ideas shared will teach you how to listen to your heart in ways you didn’t know possible, amplify your awareness and ultimately break free of the cocoon that is stopping you from seeing and embracing the beauty of this world. But it goes beyond you as individuals; it will teach you how to unite and ignite humanity’s collective voice so we can progress to the next stage of our evolution. If this is you calling, then get this book to breakthrough loneliness and live a more connected and love-infused life. A University of Washington professor of wildlife science taps the findings of his extraordinary research into crow intelligence to offer insight into their ability to make tools and respond to environmental challenges, explaining how they engage in human-like behaviors from giving gifts and seeking revenge to playing and experiencing dreams. Source-Full Intelligence, Understanding Uniqueness and Oneness through Education is a groundbreaking book which will give you an entirely new understanding of holistic education. Written by an internationally renowned educator, teacher trainer and researcher, the book is intended for all who love and care for children and young adults. It details the toxicity of our educational systems and offers viable alternatives in order to make the process of education a joyful one for learners. It urges all care givers and educators to begin by developing their own Source-full Intelligence to enable them to understand the dual capacity that we humans have of conceptualising and experiencing our uniqueness and oneness, and pass on this understanding to learners. With the help of two lesson plans in the final chapter, it demonstrates how we can fruitfully replace the Self-versus-Other consciousness with a Self-and-Other consciousness and lead children to an even higher awareness that all is Self and there is in fact, no Other. By courageously examining our own belief systems and replacing delimiting beliefs with life-enhancing ones, each one of us can, in our own unique way, contribute towards making our rapidly

shrinking and increasingly threatened world a better place for ourselves and for the generations to come. Brian Tracy, Author, Chairman and CEO of Brian Tracy International, quotes, "This is an inspiring, enjoyable, fast-moving book that shows you how to unlock your full power for unlimited success." Marie Diamond, Global Transformational Teacher, a star from The Secret, describes it as "A life manual that assists you in understanding how the Law of Attraction works, and it gives you valuable insights into the science of healing and changing your mindset that will transform your existence." The Hon Richard Evans, CEO ACE Modular Construction, depicts it as "A fascinating read and easy to apply to everyday life, and a great book to return to time and time again. Putting God Into Einstein's Equations: Energy of the Soul is the direct outcome of an unusual and unique collaboration by soul mates Marcia and Jerry Pollock spanning the spiritual and physical worlds. Marcia is deceased, and her contributions come from the powerful intelligent energy of her Divine soul, which is without her physical body in the spirit world. Jerry is alive with his Divine soul, which is constrained within his physical body on planet Earth. Communicating through thought-energy telepathy or channeling, the authors have written this exquisitely, simply explained book in their humble attempt of gratitude to bring new knowledge to the understanding of God's Essence and our world. The Creator Himself has endorsed our book, "TRUTH, LOVE AND WISDOM LIE WITHIN THESE PAGES." Putting God Into Einstein's Equations: Energy of the Soul is a provocative book that will stay with you long after you finish reading it. Have you ever wondered about how a psychic contacts a spirit or where God comes from? The book answers questions about God, the big bang, Einstein's Relativity Equations and how they fit in with God's energy, soul mates and love, the spirit world of souls, past lives, telepathic thought-energy communication, channeling, removing negative body-soul energy, intelligence of the soul, independent and combined functions of the soul versus the human brain, acquiring spirituality, miracles, resurrection and reincarnation, the Devil, good and evil, science and

spirituality, Creation and Evolution, and how a new soul that God will give us in the future Messianic Age at the End of Days will allow us to live for the eternity according to Einstein's Equations. God is energy and so is our Divine soul. Each of us receives a tiny "piece" of God's virtually infinite energy, and the difference between our energy and that of God is simply the enormous difference in order of magnitude when comparing God's energy to ours. The behavior of this energy mirrors the equations brilliantly originated and described by Albert Einstein with two exceptions -- the mass,  $m$  referenced in Einstein's famous equation,  $E=mc^2$ , is a special Mass,  $M$ , originating in God's energy particles, and God's and our soul energy travels at one million times the speed of light,  $c$ , or 186 billion miles per second. In fact, this Mass is the source of the independent intelligence and sensory properties found in the soul of all human brains. Putting God Into Einstein's Equations: Energy of the Soul is a provocative and compelling book that weaves together empirical, scientific observation, academic research, and theoretical and theological considerations, bolstered by revelatory, first-hand testimony bearing witness to the existence of the Divine soul in both the physical and spirit worlds. Contained in the pages of Putting God Into Einstein's Equations are moving, personal reflections on the authors' life experiences, from the thrill of discovering one's true soul mate to both traumatic and joyous events like a descent into bipolar depression, Divine miracles, and the pain and loss associated with the death of a loved one. Equally explored and discussed are practical first hand experiential techniques for hypnotic-spiritual world regression and directing spiritual energy and using light to alleviate negative forces. Above all else, Putting God Into Einstein's Equations seeks to advance an awareness and comprehension of God, drawing upon points of reference as diverse as Qigong and yoga to the word of rabbinical scholars. Counsels readers on how to cultivate and retain hope in the face of modern challenges, using case studies and uplifting exercises for managing both everyday struggles and more serious setbacks. Do you consider yourself to be a successful leader, or do you aspire to be so? If so then this book is for you. Do you wish to lead your teams in the most effective and energising way? Are you a follower seeking to be well led? Are you in the business of helping others to improve their performance? If you answer yes to any of these questions then you'll find much to help you in these pages. From the authors own practical experience, from his observation of other leaders and from his wide research he found that people who have become highly respected usually display the eight characteristics described within the inspiring leadership philosophy. Employing these qualities is how they manage to get others to follow them willingly. You could do the same. A coaching client, Sarah Jane Mills, who critically reviewed a draft of this book, described the benefits as follows: "This is a fresh approach to leadership and it is named perfectly. It brings together a wealth of different ideas and concepts under a very clear and simple set of 8 principles. This is about leadership based on relationship. It gives people permission to be inspiring leaders. You can analyse your own strengths, weaknesses, opportunities and threats using the compass

and you will be given a set of tools to develop your skill so you become a better inspiring leader. If you focus on these principles you will affect others in a highly positive way." It's Time to Create Your Dream Life. "Tony J. Selimi's new masterpiece A Path to Wisdom is a thought-provoking book that can center your soul, touch your heart and heal your body-mind." However, public service organizations have largely eliminated the spiritual and moral alignments they were founded upon (Houston, Freeman, & Feldman, 2008). The lack of knowledge of Spiritual Intelligence is a worthy concept to research. Bringing the concept of Spiritual Intelligence further into the body of knowledge is an important part of this published study. Emotional intelligence (EI) is an ability, skill or, in the case of the trait EI model, a self-perceived ability to identify, assess, and control the emotions of oneself, of others, and of groups. Various models and definitions have been proposed of which the ability and trait EI models are the most widely accepted in the scientific literature. Criticisms have centered on whether the construct is a real intelligence and whether it has incremental validity over IQ and the Big Five personality dimensions. - In The Marriage of Sense and Soul: Integrating

Science and Religion (1998), Wilber takes on the centuries-old problem of the relationship between science and religion. After surveying the world's great wisdom traditions and extracting features they all share, he offers compelling arguments that not only are these compatible with scientific truth, they also share a similar scientific method.

- One Taste: The Journals of Ken Wilber (1999) is a lively and entertaining glimpse into a year in the life of Ken Wilber—as well as a thought-provoking series of short essays on current trends in spirituality and psychology, daily reflections, meditation experiences, and advice to spiritual seekers.

Emotional intelligence (EI) is an ability, skill or, in the case of the trait EI model, a self-perceived ability to identify, assess, and control the emotions of oneself, of others, and of groups.
