Felrath Hines (1913–1993), the first African American man to become a professional conservator for the Smithsonian National Portrait Gallery, was born and raised in the segregated Midwest. Leaving their home in the South, Hines's parents migrated to Indianapolis with hopes for a better life. While growing up, Hines was encouraged by his seamstress mother to pursue his early passion for art by taking Saturday classes at Herron Art Institute in Indianapolis. He moved to Chicago in 1937, where he attended the Art Institute of Chicago in pursuit of his dreams. *The Life and Art of Felrath Hines: From Light to Dark* chronicles the life of this exceptional artist who overcame numerous obstacles throughout his career and refused to be pigeonholed because of his race. Author Rachel Berenson Perry tracks Hines's determination and success as a contemporary artist on his own terms. She explores Hines's life in New York City in the 1950s and 60s, where he created a close friendship with jazz musician Billy Strayhorn and participated in the African American Spiral Group of New York and the equal rights movement. Hines's relationship with Georgia O'Keeffe, as her private paintings restorer, and a lifetime of creating increasingly esteemed Modernist artwork, all tell the story of one man's remarkable journey in 20th-century America. Featuring exquisite color photographs, *The Life and Art of Felrath Hines* will explore the artist's life, work, and significance as an artist and as an art conservator. Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information. This study investigates the impact of United States-Turkish relations on Iraqi Kurdistan during 2003-2011, where the relations between US-Turkey deteriorated after the US occupation of Iraq in 2003, and following the Turkish Parliament's decision not to allow US troops to pass through its territory into Iraq and open a front in the north. The Iraqi Kurds took advantage of this opportunity and provided support and backing of the US forces and participated with the Americans in the fight against Baghdad. This study attempts to answer important questions regarding the impact of US-Turkish relations on Iraqi Kurdistan. It points out the ensuing rift in US-Turkish relations and the US dispensing of Turkey as a strategic ally in the region and the stepping up

of the Iraqi Kurds to fill this role. Furthermore, this study identifies the historical ties and strategic interests between the US and Turkey and the importance of the latter's geo-strategic position in US foreign policy. All these factors have justified America's view that Turkey is an indispensable ally and led them to sacrifice the Kurds and their cause once again in 2007, as it has done in the past. The passing and enforcement of Article 140 of the Iraqi Constitution, which relates to solving the problem of Kirkuk and other disputed territories between Baghdad and Erbil has been postponed indefinitely to appease Turkey. On the other hand, this study has found that US-Turkish relations witnessed a positive impact on the Kurdistan region of Iraq and have gone through phases of engagement and estrangement between the two countries. The Kurds exploited the deterioration of relations between the US and Turkey in 2003; they approached the US and relations normalized in 2007. This allied status with the US has had a positive impact on the Iraqi Kurds and the US has been able to convince Turkey to acknowledge the Kurdistan Regional Government of Iraq. Subsequently, the Prime Minister of Turkey, Recep Tayyip Erdoğan, visited Erbil and participated in the opening of Erbil International Airport in 2011. This study recommends that the United States to work towards consolidation of democracy in Iraq and not to allow the emergence of new dictators in Iraq. It turns specifically to the authority of a single party, the Da'wa party of Prime Minister Nūr al-Malik, as it is dedicated to improving the Iraqi Constitution and resolving outstanding disputes between Baghdad and Erbil is considered to be a source of strength and unity in Iraqi society. Without such a foundation, interests of the US and its ally in the region, Turkey, are at risk. This report, produced by the U.S. Department of Justice in March 2013, presents annual counts and rates of hate crime victimization that occurred from 2003 through 2011, using data from the National Crime Victimization Survey (NCVS). The report examines changes over time in hate crime victimizations, including the type of bias that motivated the hate crime, the type of crime, whether the incident was reported to police, and characteristics of the incident, offender, and victim. In addition, the report compares characteristics of hate crime and nonhate crime victimization. NCVS estimates are supplemented by data from official police reports of hate crime from the FBI's Uniform Crime Reporting (UCR) Hate Crime Statistics Program. A table of contents for lists of figures and tables has been added to the original report (NCJ 241291). Highlights: • From 2007 to 2011, an estimated annual average of 259,700 nonfatal violent and property hate crime victimizations occurred against persons age 12 or older residing in U.S. households. • Across the periods from 2003-06 and 2007-11, there was no change in the annual average number of total, violent, or property hate crime victimizations. • The percentage of hate crimes motivated by religious bias more than doubled between 2003-06 and 2007-11 (from 10% to 21%), while the percentage motivated by racial bias dropped slightly (from 63% to 54%). • Violent hate crime accounted for a higher percentage of all nonfatal violent crime in 2007-11 (4%), compared to 2003-06 (3%). • Between 2003-06 and 2007-11, the percentage of hate crime victimizations reported to police declined from 46% to 35%. Jerusalem is a city with a singular nature. Home to three religions, it contains spiritual meaning for people the world over; it is at once a tourist destination and a location with a complex political reality. Tourism, therefore, is an integral part of Jerusalem's development and its political conflicts. The book traces tourism and pilgrimage to Jerusalem from the late Ottoman era, through the British Mandate, during the period of the divided city, and to the reunification of the city under Israeli rule. Throughout, the city's evolution is shown to be intertwined with its tourist industry, as tourist sites, accommodations, infrastructure, and services transform the city's structures and open spaces. At the same time, tourism is wielded by various parties in an effort to gain political recognition, to bolster territorial control, or to garner support. The city's future and the role tourism can play in it are examined. While the construction of a "security fence" will have many implications on Jerusalem's tourist industry, steps are proposed to minimize the effects of the security fence and optimize tourism. Written by leading academics, this title will be valuable reading for students, academics, and researchers in the fields of tourism, religious studies, geography, history, cultural studies, and anthropology. A study of the future of global oil production and its implications, this illustrated book examines U.S. capacity followed by a look at the production futures of oil-producing regions: Western Europe, Mexico and Canada, South and Central America, Asia, the Middle East, the former Soviet Union, and Africa. Alternatives to oil are also discussed. In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome. The Teen Titans are reborn through writer Geoff Johns! Invitations go out to a handful of reluctant heroes: Superboy, Robin, Impulse and Wonder Girl! It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) What is it about remarks on bathroom walls - you can't not read them. They are not all gems of literature but sometimes, something will stick. Found on Bathroom Walls scribbles its wisdom in our psyche, lets us savor each phrase, each sound created by words found and folded in together on the page. William is a true poet, a person who finds beauty in words everywhere and can present them to us like a plate of the finest caviar with all the trimmings. A teardrop in time turns into a poem about his father, moving home turns into an epic worthy of Charlton Heston. WARNING: some of the works contained in this book use naughty language like the "F word," and other explicit words that might be found on a Bathroom Wall at a one pump gas station. ---by Carla Blaschka This report summarizes statewide Pacific salmon escapement goals in effect in 2011 and documents escapements for all species and stocks with goals from 2003 through 2011. Annual escapements are compared against escapement goals in place at the time to assess outcomes, with summaries by the Division of Commercial Fisheries regions. We list methods used to enumerate escapements and to develop current escapement goals (with brief descriptions) for each monitored stock. American Warfighter is about what went right in the Iraq War: The untold acts of valor by some of America's most highly decorated combat veterans, the brotherhood they shared, and the fighting spirit that kept them alive through the war. Gripping and intimate, American Warfighter is guaranteed to take readers on an unforgettable journey. This audit was conducted at the request of the governor in accordance with 74 O.S. § 213.2.B. The audit period covered was July 1, 2003 through March 31, 2011 unless noted otherwise in the body of the report. The objectives of the audit were to: 1) Determine whether executive management and the board of directors actions have been consistent with the statutory mission of the GRDA. 2) Determine whether the current structure of the GRDA is in the best interest of Oklahoma. America's Arab Refugees is a timely examination of the world's worst refugee crisis since World War II. Tracing the history of Middle Eastern wars—especially the U.S. military interventions in Iraq and Afghanistan—to the current refugee crisis, Marcia C. Inhorn examines how refugees fare once resettled in America. In the U.S., Arabs are challenged by discrimination, poverty, and various forms of vulnerability. Inhorn shines a spotlight on the plight of resettled Arab refugees in the ethnic enclave community of "Arab Detroit," Michigan. Sharing in the poverty of Detroit's Black communities, Arab refugees struggle to find employment and to rebuild their lives. Iraqi and Lebanese refugees who have fled from war zones also face several serious health challenges. Uncovering the depths of these challenges, Inhorn's ethnography follows refugees in Detroit suffering reproductive health problems requiring in vitro fertilization (IVF). Without money to afford costly IVF services, Arab refugee couples are caught in a state of "reproductive exile"—unable to return to war-torn countries with shattered healthcare systems, but unable to access affordable IVF services in America. America's Arab Refugees questions America's responsibility for, and commitment to, Arab refugees, mounting a powerful call to end the violence in the Middle East, assist war orphans and uprooted families, take better care of Arab refugees in this country, and provide them with equitable and affordable healthcare services. Explains how Billy Beane, the general manager of the Oakland Athletics, is using a new kind of thinking to build a successful and winning baseball team without spending enormous sums of money. The most prominent reason for the increased interest in global sourcing is the idea to benefit from factor cost differences between sourcing regions. However, recent research indicates that cross-border sourcing is no panacea to generate cost savings. There are situations in which international sourcing does not lead to the intended price reductions or even causes expensive back-sourcing activities. Accordingly, the ambiguous image of global sourcing is the point of departure for the dissertation at hand. Thus, the main purpose of this thesis is to explore how global sourcing can contribute to a firm's purchasing performance. The results indicate that the accumulation of social capital between the buying organisation and its international suppliers can increase the sourcing success. However, given the limited amount of resources for those intimate buyer-supplier relationships, close partnerships cannot be maintained with all suppliers. Consequently, the research at hand points in the direction that global sourcing can be a means to increase the intensity of competition in supply markets, facilitating the pursuit of more adversarial relationships. Beatrice Edwards, executive director of the organization representing Edward

Snowden and four other NSA whistleblowers, argues that we now live in a Corporate Security State, where the government is more interested in protecting the companies that serve it than the citizens who support it. Heavy domestic surveillance, political persecution of dissenters, the threat of indefinite detention codified into law—how did we get here? And is there a way out? Edwards details how intelligence agencies took advantage of 9/11 to illegitimately extend the government's reach. Corporations, she shows, were only too eager to sell them expensive surveillance technology, as well as share data on customers and employees using the bogus threat of an imminent “cyber war.” This is why the Justice Department isn't going after the institutions responsible for the financial collapse of 2008—government and business are partners in crime. But Edwards offers a plan to fight back and restore transparency to government, keep private information private, and make democracy a reality once again. This report examines the antipoverty effects of unemployment insurance benefits during the past recession and the economic recovery. The analysis highlights the impact of the additional and expanded unemployment insurance (UI) benefits available to unemployed workers through the American Recovery and Reinvestment Act (ARRA; P.L. 111-5) and the Emergency Unemployment Compensation (EUC08) program (Title IV of P.L. 110-252). In 2011, approximately 56% of all unemployed individuals were receiving UI benefits (down from a high of 66% in 2010) and thus were directly affected by legislative changes to the UI system. UI benefits appear to have a large poverty-reducing effect among unemployed workers who receive them. Given the extended length of unemployment among jobless workers, the additional weeks of UI benefits beyond the regular program's 26-week limit appear to have had an especially important effect in poverty reduction. Estimates presented in this report are based on Congressional Research Service (CRS) analysis of 25 years of data from the U.S. Census Bureau's Annual Social and Economic Supplement to the Current Population Survey (CPS/ASEC), administered from 1988 to 2012. The period examined includes the three most recent economic recessions. This report contributes to recent research on the antipoverty effects of unemployment insurance in several ways. Its period of analysis allows comparisons across the three most recent recessions. The report includes estimates of the effects on the poverty rate for the unemployed, for those receiving UI, and for families that report at least one family member receiving UI. It also estimates how much of reported UI benefits went directly to decreasing family poverty levels. This report's analysis shows that UI benefits appear to reduce the prevalence of poverty significantly among the population that receives them. The UI benefits' poverty reduction effects appear to be especially important during and immediately after recessions. The analysis also finds that there was a markedly higher impact on poverty in the most recent recession than in the previous two recessionary periods. The estimated antipoverty effects of UI benefits in 2011 were about 50% higher than that of two previous peak years of unemployment—1993 and 2003. In 2011, over one quarter (26.5%) of unemployed people who received UI benefits would have been considered poor prior to taking UI benefits into account; after counting UI benefits, their poverty rate decreased by just under half, to 13.8%. UI receipt affects not only the poverty status of the person receiving the benefit, but the poverty status of all related family members, as well. In 2011, while an estimated 10.2 million people reported UI receipt during the year, an additional 15.8 million family members lived with the 10.2 million receiving the benefit. Consequently, UI receipt in 2011 affected the income status of some 26.0 million persons. In 2011, the poverty rate for persons in families who had received unemployment benefits was almost 40% less than it otherwise would have been. In 2011, UI benefits lifted an estimated 2.3 million people out of poverty, of which well over one quarter (26.8%; 620,000) were children living with a family member who received UI benefits.
