Jupiter's Travels Jan 16 2022 Jupiter's Travels -Ted Simon's
astonishing 4 year motorbike journey around the world The book
that inspired Ewan McGregor's Long Way Round In the late 1970s
Ted Simon set off on a Triumph and rode 63,000 miles over four
years through fifty-four countries in a journey that took him
around the world. Through breakdowns, prison, war, revolutions,
disasters and a Californian commune, he travelled into the
depths of fear and reached the heights of euphoria. He met
astonishing people and was treated as a spy, a welcome stranger*

and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGregor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of *Riding Home* and *The Gypsy in Me*.

Off the Map Oct 01 2020 A punk rock vision quest told in the tradition of the anarchist travel story, *Off The Map* is narrated by two young women as they discard their maps, fears, and anything resembling a plan, and set off to Europe. Originating as a zine given out to a few friends in Prague, this has now received the Crimethinc lavish production treatment, and clocks in at 146 pages, complete with photographs, illustrations and a cover featuring original artwork by Nikki McClure.

Jesus and the Samurai Feb 14 2022 By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their

fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

Architects' Data Sep 11 2021 This is an essential aid in the initial design and planning of a project. The relevant building type is located by a comprehensive index and cross reference system, a condensed commentary covers user requirements, planning criteria, basic dimensions and other considerations of function, siting aspect etc. A system of references based on an extensive bibliography supports the text. In every section plans, sections, site layouts, design details and graphs illustrated key aspects of a building type's design. Most illustrations are dimensioned or scaled - the metric system of measurement is used throughout, and the equivalent in feet/inches can easily be read either off a graphic scale on the page or from the built-in conversion table. The illustrations are international in origin and include both well know and less famous designers. Architects Data is primarily a handbook of building types rather than of construction techniques and details. However its treatment of components (such as doors and windows) and of spaces for building services is extremely thorough, since consideration of this data is an essential element of the planning process. The opening pages of basic data on man and his buildings cover critical subjects such as scale, drawing practice, noise, light and space for the same reason. Particular attention has also been paid to the implications of energy conservation, means of escape from fire and the needs of the elderly and the disabled.
