Leaders in nearly every industry have learned to keep a professional "distance" between themselves and the people who report to them—to avoid getting too close or too personal. This unwritten rule of leadership is pervasive and quietly destructive, and, little by little, keeping ourselves at arm's length destroys trust, collaboration, and the very fabric of organizations. When

Tom Gartland became president of Avis Budget Group, North America, he wanted the corporate culture to become more "open and connected"—so he started with himself. His message was "business is personal—very personal." As he grew closer and connected more with those he was leading, he became a more effective leader, and those around him were inspired to create unprecedented results. Tom found that when we truly open up and care about the people we work with, we can transform organizations into sanctuaries where people feel a deep connection to one another, a profound sense of being part of an important mission, and extraordinary engagement in their work. The result? Employees who feel valued generate exceptional profits. After applying this business philosophy at Avis, not only did Tom see an increase in employee morale, he also saw a significant increase in the company's bottom line. In *Lead with Heart*, Tom provides an unconventional approach to business leadership, including advice and strategies on how to open yourself up as a leader, recognize potential in your employees, and increase employees' trust in you and the company. *Lead with Heart* is the revolutionary leadership book that will help managers and employees at all levels

grow their businesses by connecting, honestly and meaningfully, with the people they lead.

*The Lost Art of Connecting: The Gather, Ask, Do Method for Building Meaningful Business Relationships* Jul 10 2021 Uncover a new way to network and build relationships that last! Networking is often considered a necessary evil for all working professionals. With social media platforms like LinkedIn, Twitter, Instagram, and Facebook at our disposal, reaching potential investors or employers is much easier. Yet, these connections often feel transactional, agenda-driven, and dehumanizing, leaving professionals feeling burnt out and stressed out. Instead, we should connect on a human level and build authentic relationships beyond securing a new job or a new investor for your next big idea. To build real and meaningful networking contacts, we need to go back to basics, remembering that technology is a tool and not a means and end. We need to tap into our humanity and learn to be more intentional and authentic. As a "serial connector" and communications expert, Susan McPherson has a lifetime of experience building genuine connections in and out of work. Her methodology is broken down into three simple steps 1. Gather: Instead of waiting for the perfect networking opportunity to come to you, think outside the box and create your own opportunity. Host your own dinner party, join a local meet-up group, or volunteer at your neighborhood food pantry. Anyone from your

local barista to a fellow parent at your daughter's elementary school can lead to another connection that you just might need. 2. Ask: Instead of leading with our own rehearsed elevator pitches asking for help, ask to help, opening the door to share resources, experience, contacts, and perspectives that add diversity to your own vision. 3. Do: Turn new connections into meaningful relationships by taking these newly formed relationships deeper. Follow through on the promises you made, keep in touch, and learn to move past small talk by embracing your vulnerability and having conversations that matter. Woven together with helpful tips and useful advice on making the most out of every step, the book draws on the real-life success stories of friends, and clients, as well as McPherson's own experience as a renowned "serial connector." Filled with humor, humility, and wisdom, *The Lost Art of Connecting* is the handbook we all need to foster personal and professional relationships that blur the lines between work and play—and enrich our lives in every way. *Small Business Marketing for Dummies* Feb 14 2022 *Small Business Marketing For Dummies* helps you promote your business.
