Play Like a Man, Win Like a Woman Jun 09 2021 An honest and practical handbook that reveals important insights into relationships between men and women and work, Play Like a Man, Win Like a Woman, is a must-read for every woman who wants to leverage her power in the workplace. Women make up almost half of today's labor force, but in corporate America they don't share half of the power. Only four of the Fortune 500 company CEOs are women, and it's only been in the last few years that even half of the Fortune 500 companies have more than one female officer. A major reason for this? Most women were never taught how to play the game of business. Throughout her career in the super-competitive, male-dominated media industry, Gail Evans, one of the country's most powerful executives, has met innumerable women who tell her that they feel lost in the workplace, almost as if they were playing a game without knowing the directions. In this book, she reveals the secrets to the playbook of success and teaches women at all levels of the organization--from assistant to vice president--how to play the game of business to their advantage. Men know the rules because they wrote them, but women often feel shut out of the process because they don't know when to speak up, when to ask for responsibility, what to say at an interview, and a lot of other key moves that can make or break a career. Sharing with humor and candor her years of lessons from corporate life, Gail Evans gives readers practical tools for making the right decisions at work. Among the rules you will learn are: • How to Keep Score at Work • When to Take a Risk • How to Deal with the Imposter Syndrome • Ten Vocabulary Words That Mean Different Things to Men and Women • Why Men Can be Ugly, and You Can't • When to Quit Your Job

What Women Want May 01 2023 The author of Why We Buy reports on the growing importance of women in everybody's marketplace--what makes a package, product, space, or service "female friendly." He offers a tour of the world's marketplace--with shrewd observations and practical applications to help everybody adapt to the new realities. Underhill examines how a woman's role as homemaker has evolved into homeowner; how the home gym and home office are linked to the women's health movement and home-based businesses; why the refrigerator has trumped the stove as the crucial appliance; why some malls are succeeding while others fail. "The point is," writes Underhill, "while men were busy doing other things, women were becoming a major social, cultural, and economic force." And, as he warns, no business can afford to ignore their power and presence--From publisher description.

Appetites Jan 17 2022 What looks like a consciously altruistic effort to encapsulate one woman's entire life into lessons for the benefit of womankind may be just that: after divulging every gruesome detail of her spiral into anorexia and subsequent self-discoveries in this memoir, Knapp died of lung cancer last June at age 42. Similar in tone to her previous Drinking: A Love Story, this work is candid and persuasive enough to reach many women with analogous problems. But it's more than one woman's tragic story; multitudinous interviews with women with eating disorders, excerpts from classic feminist texts and sociological statistics lend credence and categorize the book under cultural studies as much as self-help. Knapp hypothesizes that the feminists who came after the revolutionary 1960s, herself included, were stifled rather than empowered by the overwhelming choices before them. They gained "the freedom to hunger and to satisfy hunger in all its varied forms." Unfortunately, writes Knapp, size-obsessed fashion magazines and other social messages contradict a woman's right to desire, contributing to the rise in eating disorders and other illnesses. Knapp observes an aspect of the backlash against the feminist movement: when "women were demanding the right to take up more space in the world," they were being told by a still patriarchal society "to grow physically smaller." Though Knapp admits it's "easier to worry about the body than the soul," she hopes creating a dialogue about anorexia will enable all women to nourish both.

Dataclysm May 09 2021 A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, Dataclysm is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

The Subjection of Women Nov 02 2020 The object of this essay is to explain as clearly as I am able, the grounds of an opinion which I have held from the very earliest period when I had formed any opinions at all on social or political matters, and which, instead of being weakened or modified, has been constantly growing stronger by the progress of reflection and the experience of life: That the principle which regulates the existing social relations between the two sexes- the legal subordination of one sex to the other- is wrong in itself, and now one of the chief hindrances to human improvement ; and that is ought to be replaced by a principle of perfect equality, admitting no power or privilege on the one side, nor disability on the other.

The End of Men Jul 11 2021 Essential reading for our times, as women are pulling together to demand their rights— A landmark portrait of women, men, and power in a transformed world. “Anchored by data and aromatized by anecdotes, [Rosin] concludes that women are gaining the upper hand.” –The Washington Post Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And “the end of men”—the title of Rosin's Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan's “feminine mystique,” Simone de Beauvoir's “second sex,” Susan Faludi's “backlash,” and Naomi Wolf's “beauty myth” once did. In this landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in The End of Men she helps us see how, regardless of gender, we can adapt to the new reality and channel it for a better future.

What Women Want--What Men Want Apr 19 2022 Following the work of E. O. Wilson, Desmond Morris, and David Buss, What Women Want--What Men Want offers compelling new evidence about the real reasons behind men's and women's differing sexual psychologies and sheds new light on what men and women look for in a mate, the predicament of marriage in the modern world, the relation between sex and emotion, and many other hotly debated questions. Drawing upon 2000 questionnaires and 200 intimate interviews that show how our sexual psychologies affect everyday decisions, John Townsend argues against the prevailing ideologically correct belief that differences in sexual behavior are "culturally constructed." Townsend shows there are deep-seated desires inherited from our evolutionary past that guide our actions. In a fascinating series of experiments, men and women were asked to indicate preferences for potential mates based on their attractiveness and apparent economic status. Women overwhelmingly preferred expensively dressed men to more attractive but apparently less successful men, and men were clearly inclined to choose more attractive women regardless of their professional status. Townsend's studies also indicate that men are predisposed to value casual sex, whereas women cannot easily separate sexual relations from the need for emotional attachment and economic security. Indeed, wherever men possess sexual alternatives to marriage, and women possess economic alternatives, divorce rates will be high. In the concluding chapter, Townsend draws upon the advice of couples who have maintained their marriages over the years to suggest ways to survive our evolutionary predicament. Lucidly and accessibly written, What Women Want--What Men Want shows us why we are the way we are and brings new clarity to one of the most intractable debates of our time.

With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of #metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men tell themselves to support their actions. In trademark Beardian style, using examples ancient and modern, Beard argues, 'it's time for change - and now!' From the author of international bestseller *SPQR: A History of Ancient Rome*.

Women want to be with a man who knows how to take the lead and make decisions; one who has strong personal boundaries and knows how to love her like...a man. All women and men who value women's liberation should read this. -- Brendan O'Neill (from the Foreword).

Women Talking Apr 07 2021 The basis of the Oscar-winning film from writer/director Sarah Polley, starring Rooney Mara, Claire Foy, Jessie Buckley, with Ben Whishaw and Frances McDormand. INTERNATIONAL BESTSELLER “This amazing, sad, shocking, but touching novel,

based on a real-life event, could be right out of *The Handmaid's Tale*.” -Margaret Atwood, on Twitter "Scorching . . . a wry, freewheeling novel of ideas that touches on the nature of evil, questions of free will, collective responsibility, cultural determinism, and, above all, forgiveness." - New York Times Book Review, Editors' Choice One evening, eight Mennonite women climb into a hay loft to conduct a secret meeting. For the past two years, each of these women, and more than a hundred other girls in their colony, has been repeatedly violated in the night by demons coming to punish them for their sins. Now that the women have learned they were in fact drugged and attacked by a group of men from their own community, they are determined to protect themselves and their daughters from future harm. While the men of the colony are off in the city, attempting to raise enough money to bail out the rapists and bring them home, these women—all illiterate, without any knowledge of the world outside their community and unable even to speak the language of the country they live in—have very little time to make a choice: Should they stay in the only world they've ever known or should they dare to escape? Based on real events and told through the “minutes” of the women's all-female symposium, Toews's masterful novel uses wry, politically engaged humor to relate this tale of women claiming their own power to decide.

Four Things Women Want from a Man Dec 28 2022 After decades of preaching, teaching, and counseling, influential Christian leader A.R. Bernard reveals the four qualities women want in a man—qualities that contribute to a satisfying and happy relationship. As a longtime pastor of a big-city church, A.R. Bernard has witnessed couples in every stage of life. He's been with them as they experienced dizzying joys, unspeakable tragedies, and everything in between. As men and women have come to Bernard for spiritual counseling and advice, he's learned patterns of behavior that are repeated time and again. After almost four decades of preaching, teaching, and counseling, he's seen that while every situation is unique, people's behaviors and consequences are amazingly consistent. With this in mind, Bernard has developed a simple system for understanding how couples relate to each other. Maturity, decisiveness, consistency, and strength—these are the four things women want and need most from a man. In his book, Bernard teaches readers how to identify and cultivate these traits toward a happy and long-lasting relationship—one built to weather any storm.

What Women Want Next Apr 27 2020 With all the choices available to today's women, why don't they more feel fulfilled? *What Women Want Next* is Susan Maushart's meditation-by turns profound and laugh-out-loud funny-on that central dilemma of postfeminist life. At one point she had it all, so why wasn't she happy? With *What Women Want Next*, Maushart combines research with personal history in a dynamic attempt to answer this question. Feminism may have led women to life's banquet table, but the meal they make of it is up to them. How to balance life and work, sex and sleep, child care and self-care? And why has women's guilt-that glass ceiling of the soul-become the biggest barrier they face? *What Women Want Next* is the first book to look at the spectrum of a woman's life and attempt to demonstrate how she can shape her own destiny throughout all its stages.

What Women Really Want Oct 02 2020 An invigorating and inspiring take on the new ways American women are changing and improving our culture and the way we live from Kellyanne Conway, counselor to president Donald Trump, and Celinda Lake, a leading political strategist for the Democratic party. Women are the most powerful force reshaping the future of America. There is a newly defined unified power base among women that crosses all the usual lines of division—politics, race, religion, age, and class—heralding the most significant change in American culture in the past century. Kellyanne Conway, counselor to president Donald Trump and president and CEO of The Polling Company, Inc. and Celinda Lake, a leading political strategist for the Democratic party—two of the most prominent trend-spotters and analysts in America—demonstrate how women are rejecting outdated traditions in order to get what they want and need. They are breaking the old rules about when and whether to marry and have children, living fully and equally as singles, and creating flexible, inclusive workplaces that don't sacrifice family or sanity. They are controlling \$5 trillion annually as the primary purchasers of homes, cars, appliances, and electronics. They are making their mark at ages twenty, forty, sixty, and beyond, drawing strength, inspiration, and intellectual stimulation from other women. Using the eye-opening results of interviews, focus groups, and polls (three of which were created especially for this book), Conway and Lake—who often fall on opposite sides of the country's most polarizing debates—come together to seek out what women buy, what they believe, how they work, how they live, what they care about, what they fear, and what they really want. By delving beneath the hot-button issues, Lake and Conway discovered common causes with which women are inventing a new age of opportunity—doing it their way and, in the process, improving life for all Americans.
