Touching the Dragon Jul 10 2021 “Jimmy Hatch is a personal hero of mine.” —Anderson Cooper “Irresistible. . . . A wounded SEAL’s shame becomes a salvation.” —J. Ford Huffman, Military Times James Hatch is a former special ops Navy SEAL senior chief, master naval parachutist, and expert military dog trainer and handler. On his fateful final mission in Afghanistan, his SEAL team was sent to recover Bowe Bergdahl—the soldier who deserted his post and fell into the hands of Al-Qaida and the Taliban. The mission went south, and Hatch was left with a shattered femur from an AK-47 round and the SEAL dog who fought alongside him was dead. As a result of his horrific leg wound, his twenty-four-year military career came to an end—and with it the only life he’d ever known. In *Touching the Dragon*, we witness his long road to recovery. Getting well physically required eighteen surgeries, twelve months of recovery, and learning to walk again. But getting well mentally would prove to be much tougher, as he fought through the depths of despair, alcoholism, and the pull to end his own life. What emerges is a different kind of hero’s journey, one in which Hatch shows the courage it takes to confess, confront, and overcome his own brokenness. Through the love of family, friends, and his military dogs, Hatch learned remarkable tools and found his purpose, and now he wants to share this wisdom with the rest of us because we all have wounds.

The Founder's Touch Oct 01 2020 Paul Vincent Galvin was Chairman of the Board of Motorola, Inc. & one of the most dynamic leaders on the American business scene. THE FOUNDER'S TOUCH is the exciting account of a vast business built from scratch, the story of a man whose life reflected the changing world of the twentieth century. Like Edison, Ford, & Firestone, among others, Galvin could not be contained by the limited horizons of his small midwestern hometown. On the wave of radio's popularity, Galvin's small manufacturing company enjoyed a mild success. His limitless energy demanded new outlets, & with his brother & talented associates he developed a radio that could be used in the new motorcars appearing on the highway. Galvin's achievements & the expansion that followed World War II tell the story of Motorola. Galvin's faith in himself & his product earned him the respect of his customers & the loyalty of his employees. His life story is a reflection of America in the twentieth century, a life bound to that giant corporation which still retains "the Galvin touch."

Sheros Feb 26 2023 Everyone has a HERO or two in their life. I consider the women in the book my Sheros because they have all contributed to my journey of becoming a Woman of God. A Touch of Life Nov 01 2020 I had always thought of writing a book since I came to the United States. I always had my journal with me and jotted down whatever came to my mind when I thought about it. Tomorrow comes, tomorrow goes, and nothing much had been written in my journal. As time went by, I forgot all about my journal. I was busy with life, life around the clock that's going to work and raising children. That's what life in the United States was when you're raising a family. However, as we all knew, time flies. The children grew big. They finished college. They run their own lives and have a family of their own. They have children who are my grandchildren. And life therefore was fulfilled. And life goes on . . . Now comes retirement. And time is not a problem anymore. Then my memory goes back when I had always thought of writing a book. Now I have the time. Some questions came to my mind. What shall I write? What will be the title of my book? My mind was racing with so many titles, and I could not decide which one would be on top of the list. I prayed and offered my prayer to the Divine Providence that the first thought that would come to my mind would be the chosen title for my book. And that is A Touch of Life. This is how my title came to be. A Touch of Life is, in a way, my autobiography or you can call it a memoir. It is a collection of short stories that happened during my growing years in the most remote island of the Philippines during the wartime years in the Pacific after the bombing of Pearl Harbor on December 7, 1941, and several more years after that. My young mind was able to capture and remember the atrocity of that war. War was never good at any place and at any time. Even now, I still have some nightmares during those dark days when the Japanese invaded the Philippines. We were infiltrated everywhere by Japanese, from Manila to the provinces and to the town and villages. My hometown was no exception. When General Douglas MacArthur returned to the Philippines as he promised, that was the time when we were finally liberated from the Japanese. The Japanese surrendered! All the Filipinos were thankful and overjoyed! After the war, life was a struggle. Every family had to start a new life. The kids were behind in their studies. Everything was scarce. Diseases were very rampant and no medical help was yet available. Life was very hurting and difficult. However, my family never lost hope. We kept our faith strong. We knew our creator would never abandon us. We knew that from a distance, God was watching his creations with A Touch of Life in our war-torn hometown of Panganiban. All these stories of long ago would have been forgotten in memories of long ago and gone with the howling winds of time without me sharing this book with you. This book is my legacy to my family, my children, grandchildren, and to all the people of the world that poverty is never permanent, never a reason for unhappiness, and is never a hindrance to success. Poverty is only a way to taste the real meaning of life. Yet some will say that God is putting us through trials when we experience poverty. For me, experiencing poverty helped me become a better person. I became more compassionate, kinder, and had empathy to strangers and other people in need. I remembering some thought in the past, that God helps those who help themselves. Reflecting on what happened to me, this thought was a part of my life. What if I didn't finish high school? What if I didn't graduate as a valedictorian? What if I didn't finish college? Without attaining all these, will I have ever moved forward to a much better life? I don't think so. They Touched My Life Oct 25 2022 Be an elementary teacher? In 1958 this was not even a consideration. I was going to be a child psychiatrist and novelist. I hadn't done any writing during my four years in the U.S. Air Force, but I had functioned as a psychologist-social worker. At twenty-one I had my own office and I was giving marriage counseling to noncommissioned officers and officers who were decades older than I was. I had practical experience doing individual and group therapy and even used psychodrama techniques. The psychiatrists I worked with all believed I was a natural therapist and they gave me dozens of books to read, we discussed their cases, and they wrote recommendations for me for medical school. My goals were lofty; then, reality set in. I didn't have the money (or grades) to become a doctor. My bachelor's degree in psychology was next to useless. A friend suggested I teach while I pursued advanced degrees to become a child psychologist. It was a painful compromise. I had already given up my dreams of becoming a professional actor or athlete and I would have to be an elementary rather than a high school teacher so I couldn't coach football or track. It was like being a dishwasher rather than a restaurant owner. There was also the commonly held belief then that a male elementary teacher must be somewhat effeminate, if not an outright homosexual. Throughout my career people have been surprised (disappointed?) that a man who looks like a light-heavyweight boxer could be a teacher of small children. Still, I had a wife and a child to support so I got a teaching credential. I had been bored in school and I was determined to make my classes interesting, but I was totally unprepared emotionally, educationally, or organizationally. I was wildly successful only because I was charismatic, creative, and I truly enjoyed the children. The more I realized how much more effective I could be with so many more children every year as a teacher than I could be as a psychologist, the more I knew I had stumbled into a great career. I had found my calling. I could express my artistic self through music, art, dancing, and drama. My athletic needs were met by playing with the children while teaching them all the sports I loved. I had a captive audience for my need to perform as I read to them dramatically and transmitted my eclectic love of learning. I was proficient in many psychological techniques, which came in handy as I probed their brains and changed their behaviors. I was almost too clinical in the first few years as I secretly tested my children using the ink blot test, sentence completion, and the TAT (ambiguous pictures) which I used as means to motivate their writing. Later, I realized that it was not so much the testing, as it was the time I spent individually with children that made the difference. I was interested in each of them and they knew it and so they shared their lives inside and outside the school as if I was their therapist. Therapists never get the opportunity to see their clients in the environments that are causing their problems. I not only saw things through their eyes and the dynamics of their relationships, but I was in the position to actually change these by what I did. Whether it was as simple as changing their seat or reading group or placing them in allegedly extemporaneous plays to act out (feel) a role that they needed to experience, I made immediate changes in their lives. It was then I knew that my (often) traumatic experiences as a gifted Jewish child alone in hostile schools where I was seen as an evil presence was not unusual. It was not religious, racial, cultural, or gender differences alone, it was the very structure of the schools that caused the horrific and demeaning situations that almost every child experiences. The const

Handle with Care Dec 15 2021 Whether it's fearful side hugs on one side or sexual abuse on the other, both the culture and the church aren't doing very well with touch. Singles are staying single longer, dating is wrought with angst over purity, and marriages struggle to not interpret all forms of touch as sexual. Even the Bible seems to have endless rules about not touching things. There is simply no place where touch doesn't seem threatened or threatening. But a curious thing happens when Jesus comes into His ministry: He touches. Jesus touches the sick and the outcast, the bleeding and the unclean. What could it mean for families, singles, marriages, churches, communities, and the world to have healthy, pure, faithful, ministering touch? Somewhere in the mess of our assumptions and fears about touch, there is something beautiful and good and God-given. As Jesus can show us, there is ministry in touching.

The Unmistakable Touch of Grace Dec 03 2020 "Every event we experience and every person we meet has intentionally been put in our path to help us lead more conscious and fulfilled lives," says Cheryl Richardson, the New York Times bestselling author of Take Time for Your Life, Life Makeovers, and Stand Up for Your Life. In her new book -- her most personal work to date -- she'll show you that, once you learn to view your life from this perspective, the person who smiles at you while you're walking down the street is no longer a stranger, the phone call from an old friend who crossed your mind the day before is no longer a surprise, and the failed relationship that left you brokenhearted is no longer a source of bitterness and pain. Instead, these experiences -- examples of what Richardson calls "the unmistakable touch of grace" -- are seen as blessings in disguise, gifts that make you stronger, more conscious, and, ultimately, more alive. To read this beautiful, intimate, and profoundly inspiring book is like having a conversation with Richardson herself. Filled with illuminating stories, provocative experiments, and striking examples of how grace has influenced her own life, Richardson will help you recognize that your life is being influenced, too, in ways you may never have imagined. The Unmistakable Touch of Grace helps you to see the hidden miracles that occur every day -- and gives you the courage to use them to make your life more meaningful, magical, hopeful, and complete.

The River You Touch Apr 06 2021 "We are matter and long to be received by an Earth that conceived us, which accepts and reconstitutes us, its children, each of us, without exception, every one. The journey is long, and then we start homeward, fathomless as to what home might make of us." --from The River You Touch When Chris Dombrowski burst onto the literary scene with Body of Water, the book was acclaimed as "a classic" (Jim Harrison) and its author compared with John McPhee. Dombrowski begins the highly anticipated All of It Everywhere with a question as timely as it is profound: "What does a meaningful, mindful, sustainable inhabitation on this small planet look like in the anthropocene?" He answers this fundamental question of our time initially by listening lovingly to rivers and the land they pulse through in his adopted home of Montana. Transplants from the post-industrial Midwest, he and his partner, Mary, assemble a life based precariously on her income as a schoolteacher, his as a poet and fly-fishing guide. Before long, their first child arrives, followed soon after by two more, all "free beings in whom flourishes an essential kind of knowing [...], whose capacity for wonder may be the beacon by which we see ourselves through this dark epoch." And around the young family circles a community of friends -- river-rafting guides and conservationists, climbers and wildlife biologists -- who seek to cultivate a way of living in place that moves beyond the mythologized West of appropriation and extraction. Moving seamlessly from the quotidian -- diapers, the mortgage, a threadbare bank account -- to the metaphysical -- time, memory, how to live a life of integrity -- Dombrowski illuminates the experience of fatherhood with intimacy and grace. Spending time in wild places with their children, he learns that their youthful sense of wonder at the beauty and connectivity of the more-than-human world is not naive to be shed, but rather wisdom most of us lose along the way -- wisdom that is essential for the possibility of transformation.

The Life and Work of Ludwig Lewisohn: A touch of wildness Jun 08 2021 An imposing literary figure in America and Europe during the first half of the twentieth century, Ludwig Lewisohn (1882-1955) struggled with feelings of alienation in Christian America that were gradually resolved by his developing Jewish identity, a process reflected in hundreds of works of fiction, literary analysis, and social criticism. A friend and associate of Sinclair Lewis, James Joyce, Thomas Mann, Paul Robeson, Edward G. Robinson, Theodore Dreiser, H. L. Mencken, Stephen Wise, Maurice Samuel, and a host of others, Lewisohn impacted the intellectual, cultural, religious, and political worlds of two continents. This first volume, chronicling his life until 1934, is followed by a second volume that portrays Lewisohn's last decades as an outspoken opponent of Nazi Germany, a leading promoter of Jewish rescue and resettlement in Palestine, a member of Brandeis University's first faculty, and one of the earliest voices advocating Jewish renewal in America. Born in Berlin, Lewisohn moved with his family in 1890 to South Carolina. Identified by others as a Jew, he remained an outsider throughout his youth. As a graduate student at Columbia University, warnings that a Jew could not secure a position teaching English forced him to abandon his studies. The Broken Snare (1908), Lewisohn's story of a young woman's acceptance of her deepest thoughts and desires, paralleled his own reaction to this isolation. Attacking the social mores of his age, the novel was judged as scandalous by critics. In time Lewisohn became a notable scholar and translator of German and French literature, teaching at Wisconsin and Ohio State. Following his mother's death in 1914, he began to explore the Jewish life he had rejected, and by 1920 became a Zionist committed to fighting assimilation. Accusatory and inflammatory, his memoir Up Stream (1922) struck at the very heart of American culture and society, and caused great controversy and lasting enmity. As strong emotional influences, the women in Lewisohn's life-his mother and four wives-helped to frame his life and work. Believing himself liberated by the woman he declared his "spiritual wife" while legally married to another, he proclaimed the artist's right to freedom in The Creative Life (1924), abandoned his editorship at The Nation, and fled to Europe. Lewisohn's fictionalized account of his failed marriage, The Case of Mr. Crump (1926), once again attacked the empty morality of this world and won Sigmund Freud's praise as the greatest psychological novel of the century. A creator of one of Paris's leading salons, Lewisohn ended his leisurely writer's life in 1934 to awaken America to the growing Nazi threat. Poised to face the unfinished marital battle at home, but anxious to engage in the coming struggle for Jewish survival and the future of Western civilization, he set sail, unsure of what lay ahead.

Heaven's Touch Sep 11 2021 "As you gaze into the starry sky, you might feel isolated from the Universe around you - but you're not. This book reveals the startling ways life on Earth is touched by our cosmic environment, and demonstrates why without such contact, life itself wouldn't be possible." "Heaven's Touch embarks on an unforgettable journey across the cosmos, beginning in near space with a look at the gentle ebb and flow of lunar and solar tides. Acclaimed astronomer James Kaler describes their subtle effects on our world and also explores the Sun's more potent influences, such as solar storms that cause auroras, give comets their tails, and knock out power grids on Earth. He ventures across the Solar System to consider how the planets can act to produce climate change, even global disaster. Kaler shows how Jupiter's gravity can throw asteroids toward potentially devastating collision with Earth, and how even our whole Galaxy might hurl comet storms at us. He then takes us into deepest space to describe the cosmic rays launched at us from exploding stars, and considers not just how these exploders might harm us, but how they also join together in the creation of stars and how they serve to populate the Universe with the very building blocks of life." --Book Jacket.

Touched by God Mar 25 2020 Luigi Gioia's book Say it to God: In Search of Prayer was chosen as the 2018 Archbishop of Canterbury's Lent Book and welcomed by many as an honest, accessible guide to freshen their practice of prayer in the midst of busy modern life. In Touched by God, Gioia moves on to explore the art of contemplation. He points out that contemplation is not a more advanced way of praying but a silent and loving attentiveness to God which has nothing in common with disembodied, ahistorical and impersonal forms of spirituality. Contemplation begins when we are touched by God through Scripture and become aware of his presence in us. Gioia shows how this happens concretely in the lives of the characters of the Gospel of John, his chosen guide to learn how to welcome God in our lives and interact with him. Gioia's way to contemplation takes the reader not only through Scripture but also through plays and novels where God is never mentioned or is seen as absent, distant or even as an enemy. By engaging with both religious and non-religious authors the reader can discover that contemplation is not some kind of spiritual wonderland but coexists with doubts, thrives in the middle of struggles, is discovered even in suffering, dissolves guilt and leads to authentic self-knowledge and compassion for every human being.

Touching Stories of My Life in Journey to Christian Holiness and Hands- on Patient Care in a Weeping Healthcare Nov 13 2021 This is the twelfth book in the series Christianity and the Human Brain. It integrates neuroscience and the Bible, the holy book of Jesus. My love for Jesus Christ abides with my lifetime passion for neurosurgery and medicine. I have a continual obsession for spiritual connectivity between the Holy Spirit and the human brain, which indeed separates mankind from all other living creation. It has been my belief that the human brain does not limit itself to the physical skull. Rather, it extends in a nonphysical form to the outside spiritual world, even while living on earth. In other words, a big part of the human brain is actually outside the skull and the body. After performing brain surgeries for three decades, I have realized that my theory is so true. The majestic human brain can't be just the 1,500 grams of jelled matter inside the skull. The human journey, therefore, is transforming the human brain into the brain of a man of God and transforming the hand of man into the hand of the man of God. The spiritual human brain never dies. Only the flesh does. This is the center of my calling and my unrelenting meditations while roaming in the heartfelt spirit, lacking the physical proof that science demands from me. My life is dedicated to Jesus, to my patients, and to my residents. As a physician, I have reached the top within America both as a professor of neurological surgery and anesthesiology and as a well-published author of several famous medical journals. As an academic teacher, I trained for more than thirty-four years and have watched thousands of trainees graduate. But all this is nothing as I strive to achieve Christian holiness and fullness. In a weeping healthcare with many patients' falling victims, I included actual miracles, testimonials, and sincere quotes from patients as a testament to the Almighty and the dire need for faith and good-hearted medicine. This book is full of many vibrant stories that I love to share, which is timely since I am guessing that my generation will soon be viewed obsolete by future generations. What will remain are the books I authored. This book is a text of wealth, covering broad and diverse topics in my life journey within 134 chapters and organized over fourteen sections. So many chapters are written about my special love for Jesus Christ and his children. In poems, deep reflections, and spiritual release of mind, I wrote extensively. In fact, I shut my senses and impersonated the human brains of the men of God and the children of the Most High in their prominent biblical stories. A special section is dedicated to mothers, newborns, and little children. While my soul is grieving, a section is centered on the ongoing Christian persecution, especially the genocide of Christians in my country, Egypt, which is also the ancient region of the Middle East and the oldest historic continent of Africa. Furthermore, I wrote some of my dreams and thoughts that I couldn't otherwise convey for one reason or another, such as neuroscience in aerospace and some of the timely and touching subjects such as drug overdose, human trafficking, and health-care crises. Few chapters are included about my personal views about introducing spirituality into the recent turmoil in politics. Friends, human life starts with love and ends with eternal love for our savior. It is never enough to share our love and write about love and talk about actual love stories of heavenly roses, joy, Christmas, healing touch, miracles, and our calling for his purpose. This is what my twelfth book is all about.

Few chapters included are about my personal views and introducing spirituality into the recent turmoil in politics. Friends, human life starts with love and ends with eternal love for our Savior. It is never enough to share our love, write about love, and talk

about actual love stories of heavenly roses, joy, Christmas, healing touch, miracles, and our calling for his purpose. This is what my twelfth book is all about.

Divinely Touched: Transform Your Life Dec 27 2022 Divinely Touched is a story of personal transformation. It chronicles Mary's spiritual awakening, how she was divinely saved, led, and transformed. From the depths of depression, from battles with physical ailments for which the medical profession had no explanations, from being led into worlds she never knew existed, she survived being taken to the underworld. She was guided and healed by light workers, shamans, and avatars from this world and the spirit dimension and led on a journey of personal, physical, mental, and spiritual healing. Mary's experience, like that of a caterpillar when transformed into a beautiful butterfly, is one that will inspire, enlighten, and transform your life as well. Dr. Dave uses science, research, and "knowledge of the ages" to explain what Mary experienced and open worlds to the reader that they may never have imagined. Divinely Touched: Transform Your Life can, in fact, do just that. "With painstaking detail, Mary describes her descent into darkness and her triumphant return. Like Margaret Starbird, in The Goddess in the Gospels, who also has a spiritual awakening that took her into the realms of psychosis, Mary describes a similar personal descent into darkness before bursting forth into spiritual awareness. Inside you will find a compelling story that may help you or someone you love." —Maureen St. Germain, author of Beyond the Flower of Life & You Are the Genie in the Bottle "The world is waiting for this powerful story of good vs. evil. Mary's story is amazing, compelling, eye-opening, and courageous. Her faith has carried her through the darkness into the light. She is God's instrument and truly a living expression of divine light flowing forth into the world. Divinely Touched is a must-read, and you won't want to put it down. It will blow your mind!" —Pat Hastings, Author of Simply a Woman of Faith: How to Live in Spiritual Power and Transform Your Life "Mary's amazing story will capture your interest and touch your heart. You will be inspired to move forward on your own journey of awakening." —Andrew Oser, author of How Alternation Can Change Your Life; Finding the Rhythms of Health and Happiness "Divinely Touched is a wonderful book that documents an impassioned and heartfelt account of the pitfalls and triumphs of personal awakening." —Dr. Michael Sharp, author of The Great Awakening, The Book of Light, The Book of Love, The Dossier of Ascension

The Touch Taboo in Psychotherapy and Everyday Life Sep 23 2022 Touch has been a taboo in mainstream Western talking therapies since their inception. This book examines the effects on us of touch, and of touch deprivation – what we feel when we are touched, what it means to us, and the fact that some individuals and cultures are more tactile than others. The author traces the development and perpetuation of the touch taboo, puts forward counterarguments to it, outlines criteria for the safe and effective use of touch in therapy, and suggests ways of dismantling the touch taboo should we wish to do so. Through moving interviews with clients who have experienced life-changing benefits of physical contact at the hands of their therapists, the place of touch in therapy practice is re-evaluated and the therapy profession urged to re-examine its attitudes towards this important therapeutic tool. This book will be essential reading for therapists, counsellors, social workers, educators, health professionals and for any general reader interested in the crucial issue of touch in everyday life.

The Nelson Touch Mar 06 2021 Admiral Horatio Nelson captures our imaginations like few other military figures. A mixture of tactical originality, raw courage, cruelty, and romantic passion, Nelson in action was daring and direct, a paramount naval genius and a natural born predator. Now, in The Nelson Touch, novelist Terry Coleman provides a superb portrait of Britain's most revered naval figure. Here is a vivid account of Nelson's life, from his childhood and early career at sea--where a high-placed uncle helped speed his advancement to post captain--to gripping accounts of his greatest sea battles. Readers will witness the Battle of the Nile, where Nelson crushed a French squadron of thirteen ships of the line, and the Battle of Trafalgar, where he died at the moment of his greatest triumph. What emerges is a man of strength of mind amounting to genius, frequently generous, always fascinated with women, often uneasy with his superior officers, and absolutely fearless. Nelson was a ruthless commander, whose instinct was not just to defeat the enemy but to annihilate him. Sure to appeal to readers of Patrick O'Brian and other seafaring fiction, as well as all military history and naval history buffs, this is a superbly written biography that gives readers the texture and feel of this magnificent life.

Touching Spirit Bear Jan 22 2020 In his Nautilus Award-winning classic *Touching Spirit Bear*, author Ben Mikaelson delivers a powerful coming-of-age story of a boy who must overcome the effects that violence has had on his life. After severely injuring Peter Driscall in an empty parking lot, mischief-maker Cole Matthews is in major trouble. But instead of jail time, Cole is given another option: attend Circle Justice, an alternative program that sends juvenile offenders to a remote Alaskan Island to focus on changing their ways. Desperate to avoid prison, Cole fakes humility and agrees to go. While there, Cole is mauled by a mysterious white bear and left for dead. Thoughts of his abusive parents, helpless Peter, and his own anger cause him to examine his actions and seek redemption—from the spirit bear that attacked him, from his victims, and, most importantly, from himself. Ben Mikaelson paints a vivid picture of a juvenile offender, examining the roots of his anger without absolving him of responsibility for his actions, and questioning a society in which angry people make victims of their peers and communities. *Touching Spirit Bear* is a poignant testimonial to the power of a pain that can destroy, or lead to healing. A strong choice for independent reading, sharing in the classroom, homeschooling, and book groups.

Everything She Touched Mar 30 2023 *Everything She Touched* recounts the incredible life of the American sculptor Ruth Asawa. This is the story of a woman who wielded imagination and hope in the face of intolerance and who transformed everything she touched into art. In this compelling biography, author Marilyn Chase brings Asawa's story to vivid life. She draws on Asawa's extensive archives and weaves together many voices—family, friends, teachers, and critics—to offer a complex and fascinating portrait of the artist. Born in California in 1926, Ruth Asawa grew from a farmer's daughter to a celebrated sculptor. She survived adolescence in the World War II Japanese-American internment camps and attended the groundbreaking art school at Black Mountain College. Asawa then went on to develop her signature hanging-wire sculptures, create iconic urban installations, revolutionize arts education in her adopted hometown of San Francisco, fight through lupus, and defy convention to nurture a multiracial family. • A richly visual volume with over 60 reproductions of Asawa's art and archival photos of her life (including portraits shot by her friend, the celebrated photographer Imogen Cunningham) • Documents Asawa's transformative touch—most notably by turning wire – the material of the internment camp fences – into sculptures • Author Marilyn Chase mined Asawa's letters, diaries, sketches, and photos and conducted interviews with those who knew her to tell this inspiring story. Ruth Asawa forged an unconventional path in everything she did—whether raising a multiracial family of six children, founding a high school dedicated to the arts, or pursuing her own practice independent of the New York art market. Her beloved fountains are now San Francisco icons, and her signature hanging-wire sculptures grace the MoMA, de Young, Getty, Whitney, and many more museums and galleries across America. • Ruth Asawa's remarkable life story offers inspiration to artists, art lovers, feminists, mothers, teachers, Asian Americans, history buffs, and anyone who loves a good underdog story. • A perfect gift for those interested in Asian American culture and history • Great for those who enjoyed *Ninth Street Women: Lee Krasner, Elaine de Kooning, Grace Hartigan, Joan Mitchell, and Helen Frankenthaler: Five Painters and the Movement That Changed Modern Art* by Mary Gabriel, *Ruth Asawa: Life's Work* by Tamara Schenkenberg, and *Notes and Methods* by Hilma af Klint
